

TG353

IP44

Big support for KNX weather station

Technical properties

Functions

Precipitation (Yes/No) 1 bit

Voltage

Operating voltage over bus 21...32 V DC

Dimensions

Dimensions (LLxwwxhh) 40x16x6,5

Length, wall bracket 400 mm

Measurement

Measuring range, wind speed 0...35 m/s

Materials

Material aluminium

Connection

Bus coupling unit with integral bus coupling unit

Bus connection bus connection via connecting terminal

Equipment

Slewing with an adjustable joint

Use

Differentiation characteristic 3 - Sales with integral bus coupling unit

Safety

Protection index IP IP44

Use conditions

Operating temperature -30...50 °C

temperatur

Temperature measuring range, linear -30...80 °C

Identification

Main design line KNX

Instructions

Information text Ensure correct orientation and free-standing installation.
