Product data sheet 41098982

41098982

SCHUKO soc.out. LED orient., enhncd contact prot., screw-in lift term., S.1, wh.gl.

Technical properties

Design	according to DIN 49440
Configuration	
Number of modules	1
Main electrical features	
Nominal voltage	250 \
Rated voltage	250 V A0
Frequency	50/60 H
Rated current	16 /
Electric current	
Rated current	16 /
Dimensions	
Insertion depth	32 mr
Power	
Power consumption	0.25 W/0.35 V/
Power consumption Cover, door	0.25 W/0.35 V/
Cover, door	0.25 W/0.35 V/ Central cover plate
Cover, door Cover	Central cover plate integrated brightness sensor that switches the orientation light on at twilight and off when there i
Cover, door Cover Detection	Central cover plate integrated brightness sensor that switches the orientation light on at twilight and off when there i
Cover, door Cover Detection Sensor	
Cover, door Cover Detection Sensor Materials	Central cover plate integrated brightness sensor that switches the orientation light on at twilight and off when there i sufficient brightnes
Cover, door Cover Detection Sensor Materials Colour of design line	Central cover plate integrated brightness sensor that switches the orientation light on at twilight and off when there i sufficient brightnes white
Cover, door Cover Detection Sensor Materials Colour of design line Colour	Central cover plat integrated brightness sensor that switches the orientation light on at twilight and off when there i sufficient brightnes white white
Cover, door Cover Detection Sensor Materials Colour of design line Colour	Central cover plat integrated brightness sensor that switches the orientation light on at twilight and off when there i sufficient brightnes white white
Cover, door Cover Detection Sensor Materials Colour of design line Colour Surface appearance	Central cover plat integrated brightness sensor that switches the orientation light on at twilight and off when there i sufficient brightnes whit white gloss
Cover, door Cover Detection Sensor Materials Colour of design line Colour Surface appearance Lighting control	Central cover plate integrated brightness sensor that switches the orientation light on at twilight and off when there i sufficient brightnes white
Cover, door Cover Detection Sensor Materials Colour of design line Colour Colour Surface appearance Lighting control Switch-off brightness	Central cover plate integrated brightness sensor that switches the orientation light on at twilight and off when there i sufficient brightnes white white gloss ~ 4 li

white LED light ; long service life of the LED

LED

Installation, mounting	
Installation mode	with spreader claws
Connection	
Conductor cross-section (rigid)	max. 2.5 mm²
Connection terminals	according to IEC 60884-1
Connection terminals	according to VDE 0620-1
Type of connection	with screw-in lift terminals
Cable	
Wiring	through-wiring possible, therefore also ideal for retrofitting

Equipment

Lighting

Use

Differentiation characteristic 2 - Sales

Differentiation characteristic 3 - Sales

Safety

IK protection code against mecanical impacts	05
REACH conform	Yes
RoHS conform	Yes
Halogen free	No
Protection	Enhanced contact protection
With enhanced contact protection	Yes

Identification

Main design line

Secondary design line(s)

Berker S.1/B.3/B.7 Berker S.1 ; Berker B.3 ; Berker B.7

Instructions

Information text

Caution! Items with special flush-mounted insert. Centre plates with LED orientation lights are not compatible with the standard socket outlets.

additional benefit by combination of a socket outlet

with an orientation light

enhanced contact protection

Screw-in lift terminals
