

80960271

Cover for 1gang for push-button module, clearlens, K.5, al., matt, lacq.

Technical properties

Functions

Easy link functions	operating concept "independent push-button" func- tion predefined ; operating concept for "roller shut- ter/blind" function predefined ; switching of scenes (18) possible ; brightness value of the status LEE for day/nighttime operation preset, change-over for day/nighttime operation possible ; integrated temperature sensor with output of the measured values ; Colour of status LED uniformly adjustable for complete device ; push-button functions: including switching, dimming, roller shutter/blind, timer, prior ity, operating mode changeover
Function	Function for manual interruption of automatic function already triggered
	operating surfaces as buttons (single-surface opera tion) and rockers (two-surface operation) ; the brightness of status LEDs are individually adjustable for button/ rocker function ; brightness value of the status LEDs for day/nighttime operation adjustable via object or manually ; value transmitter for dimming, position, brightness temperature values 1 and 2 byte ; integrated temperature sensor with output of the measured values via object ; para meter defineable lock function ; button/rocker func tions for switching, dimming, roller shutter/blind value transmitter 1/2 byte, room thermostat exten sion unit, priority, scene, automatic control deactiva
Function	tior
Controls and indicators	
Operation	
Operation Button / push-button	operation
	operation
Button / push-button Voltage Operating voltage over bus	operation with programming button and red programming LEE
Button / push-button Voltage Operating voltage over bus Dimensions	operation with programming button and red programming LED 2132 V DO
Button / push-button Voltage Operating voltage over bus	operation with programming button and red programming LED 2132 V DO
Button / push-button Voltage Operating voltage over bus Dimensions Height Power	operation with programming button and red programming LED 2132 V DO 55 mn
Button / push-button Voltage Operating voltage over bus Dimensions Height	operation with programming button and red programming LED 2132 V DO 55 mm
Button / push-button Voltage Operating voltage over bus Dimensions Height Power	operation with programming button and red programming LED 2132 V DO 55 mm
Button / push-button Voltage Operating voltage over bus Dimensions Height Power Power consumption, KNX	operation with programming button and red programming LED 2132 V DO 55 mm ≈ 108 mW with clear lens for RGB status display of the push
Button / push-button Voltage Operating voltage over bus Dimensions Height Power Power consumption, KNX Camera	operation with programming button and red programming LED 2132 V DO 55 mm ≈ 108 mW with clear lens for RGB status display of the push
Button / push-button Voltage Operating voltage over bus Dimensions Height Power Power consumption, KNX Camera Lens	operating areas configurable as one or two-area operation with programming button and red programming LED 2132 V DO 55 mm ≈ 108 mW with clear lens for RGB status display of the push button module aluminium

Bus coupling unit	with integral bus coupling unit
Bus connection	bus connection via connecting termina
Settings	
Supported configuration modes	system, easy
Equipment	
Buzzer/siren	with integrated buzzer for acoustic identification o the device within the system
Use	
Differentiation characteristic 2 - Sales	with clear lens
Safety	
REACH conform	Ye
RoHS conform	Yes
Halogen free	No
Protection	with dismantling protection
Use conditions	
Operating temperature	-545 °(
Storage/transport temperature	-2070 °C (storage at > 45°C reduces the service life
Temperature	integrated temperature sensor with output of the measured values via objec
Identification	
Application, usage	KNX - operating system
Product family	product family: push-buttor
Main design line	KNX - Berker K.1/K.
Secondary design line(s)	KNX ; Berker K.1 ; Berker K.5
