

80960283

Cover for 1gang for push-button module, clearlens, S.1/B.3/B.7, al., matt, lacq.

Technical properties

Functions

| Easy link functions | operating concept "independent push-button" func- tion predefined ; operating concept for "roller shut- ter/blind" function predefined ; switching of scenes (18) possible ; brightness value of the status LED for day/nighttime operation preset, change-over for day/nighttime operation possible ; integrated temperature sensor with output of the measured values ; Colour of status LED uniformly adjustable for complete device ; push-button functions: including switching, dimming, roller shutter/blind, timer, prior- ity, operating mode changeover |
|--|---|
| Function | Function for manual interruption of automatic func- tions already triggered |
| Function | operating surfaces as buttons (single-surface opera- tion) and rockers (two-surface operation) ; the brightness of status LEDs are individually adjustable for button/ rocker function ; brightness value of the status LEDs for day/nighttime operation adjustable via object or manually ; value transmitter for dimming, position, brightness temperature values 1 and 2 byte ; integrated temperature sensor with output of the measured values via object ; para- meter defineable lock function ; button/rocker func- tions for switching, dimming, roller shutter/blind, value transmitter 1/2 byte, room thermostat exten- sion unit, priority, scene, automatic control deactiva- tions |
| Controls and indicators | |

| | operating areas configurable as one or two-area |
| Operation | operating areas configurable as one or two-area operation |
| Operation Button / push-button | operation |
| · | operation |
| Button / push-button | operation with programming button and red programming LEE |
| Button / push-button Voltage | operation with programming button and red programming LEE |
| Button / push-button Voltage Operating voltage over bus | operation with programming button and red programming LEE 2132 V DC |
| Button / push-button Voltage Operating voltage over bus Dimensions | operation with programming button and red programming LEE 2132 V DC |
| Button / push-button Voltage Operating voltage over bus Dimensions Height | operation with programming button and red programming LEE 2132 V DC 55 mm |
| Button / push-button Voltage Operating voltage over bus Dimensions Height Power | operation with programming button and red programming LED 2132 V DO 55 mm |
| Button / push-button Voltage Operating voltage over bus Dimensions Height Power Power consumption, KNX | |
| Button / push-button Voltage Operating voltage over bus Dimensions Height Power Power consumption, KNX Camera | operation with programming button and red programming LED 2132 V DO 55 mm ≈ 108 mW with clear lens for RGB status display of the push- |
| Button / push-button Voltage Operating voltage over bus Dimensions Height Power Power consumption, KNX Camera Lens | operation with programming button and red programming LED 2132 V DO 55 mm ≈ 108 mW with clear lens for RGB status display of the push- |

| Bus coupling unit | with integral bus coupling unit |
|--|---|
| Bus connection | bus connection via connecting termina |
| Settings | |
| Supported configuration modes | system, easy |
| Equipment | |
| Buzzer/siren | with integrated buzzer for acoustic identification o the device within the system |
| Use | |
| Differentiation characteristic 2 - Sales | with clear lens |
| Safety | |
| REACH conform | Ye |
| RoHS conform | Ye |
| Halogen free | N |
| Protection | with dismantling protection |
| Use conditions | |
| Operating temperature | -545 °(|
| Storage/transport temperature | -2070 °C (storage at > 45°C reduces the service life |
| Temperature | integrated temperature sensor with output of the measured values via object |
| Identification | |
| Application, usage | KNX - operating system |
| Product family | product family: push-buttor |
| Main design line | KNX - Berker S.1/B.3/B. |
| Secondary design line(s) | KNX ; Berker S.1 ; Berker B.3 ; Berker B. |
