

Electronics platform

## Extension unit for motion det., electronics

## **Technical properties**

| Main electrical features                  |  |
|---|--|
| Frequency                                 | 50/60 Hz   |
| Voltage                                   |  |
| Operating voltage                         | 230 V AC   |
| Fuse                                      |  |
| Fuse                                      | short-circuit and overload proof (electronic fuse)                   |
| Dimensions                                |  |
| Insertion depth                           | 32 mm  |
| Materials                                 |  |
| Material / surface                        | no conductive connection between supporting ring and spreading claws |
| Connection                                |  |
| Screw terminals (max.)                    | 2 x 1,5/1 x 2,5 mm <sup>2</sup>                                      |
| Number of motion detector extension units | unlimited  |
| Type of connection                        | with screw terminals   |
| Cable                                     |  |
| Cable length, extensions                  | max. 50 m  |
| Use conditions                            |  |
| Operating temperature                     | -545 °C  |
| Energy-saving                             | low intrinsic energy requirement                                     |
| Relative humidity (without condensation)  | 065 % (without condensation)   |
| Identification                            |  |
| Application, usage                        | Motion detector  |
