

TCC530E

IP41

Presence detector 360° monobloc KNX multi-channels

Technical properties

Bus system KNX

Functions

Function

Linking several detectors in order to expand the detection area; Functions e.g. switching, dimming, light scenes, forced control; with 2 independent zone detections

Configuration

two separate function channels for brightness-de-Channels pendent and brightness-independent functions

Controls and indicators

Button / push-button with programming button

Connectivity

Number of binary inputs 0

Voltage

Operating voltage over bus 21...32 V DC

Dimensions

Dimensions (Ø x H) 78 x 70 mm

Installation opening Ø 60...63 mm

Recommended installation height 2.5...3.5 m

Installation wall thickness 10...28 mm

Measurement

Detection Method presence

Detection

Detection angle 360° Detection angle 360° Angle of vertical detection 55° Detection field Ø, on floor $\approx 7 \text{ m}$ Detection field Ø, at desk height $\approx 5 \text{ m}$ Frontal detecting distance7 mSide detecting distance8 m

Materials

Colour white

RAL colour RAL 9010 - Pure white

Surface appearance matt **Lighting control** Brightness measurement range 5 / 1000 Lux Installation, mounting Maximum Mounting Height 4 m Installation mode with spring clips for ceiling installation Connection Bus coupling unit with integral bus coupling unit Bus connection bus connection via connecting terminal Settings Supported configuration modes system Delay time, adjustable 1 mn...1 h with potentiometers for setting the response bright-Setting ness and delay time without dismantling Scope of delivery Bus connection included Yes **Equipment** Number of channels 2 360° Angle of horizontal detection **Use conditions** Operating temperature -10...45 °C -20...60 °C Storage/transport temperature energy saving by presence and brightness-con-Energy-saving trolled lighting control Identification
