

## Small support for KNX weather station

## **Technical properties**

Architecture	
Fixing mode	surface-mounting
Functions	
Precipitation (Yes/No)	1 bit
Controls and indicators	
Button / push-button	with programming button
Voltage	
Operating voltage over bus	2132 V DC
Dimensions	
Dimensions (LLxwwxhh)	6,5x4,5x4
Measurement	
Measuring range, wind speed	035 m/s
LED control	
LED	with red programming LED
Connection	
Bus coupling unit	with integral bus coupling unit
Bus connection	bus connection via connecting terminal
Use	
Differentiation characteristic 3 - Sales	with integral bus coupling unit
Safety	
Protection index IP	IP44
REACH conform	Yes
RoHS conform	Yes
Use conditions	
Operating temperature	-3050 °C
operating temperature	3030
temperatur	
Temperature measuring range, linear	-3080 °C
Identification	
Main design line	KNX

Instructions

	Information text	Ensure correct orientation and free-standing installa- tion.
Subject to technical modifications
