

## Relay switch centre plate for hotel card, 1930/R.classic, p. white glossy

## **Technical properties**

| Number of keys                      | 0   |
|-------------------------------------|---|
| Fixing mode                         | flush-mounting  |
| Tixing mode                         | nasii indanting   |
| Configuration                       |   |
| Switch mode                         | 1pole   |
| Antibacterial treatment             | No  |
| Main electrical features            |   |
| Nominal voltage                     | 230 V   |
| Rated voltage                       | 230 V AC  |
| Frequency                           | 50/60 Hz  |
| Electric current                    |   |
| Inductive load at $\cos \phi = 0.6$ | max. 6 A  |
| Dimensions                          |   |
| Depth                               | 60 mm   |
| Insertion depth                     | 32 mm   |
| Card width                          | max. 55 mm  |
| Card thickness                      | 0.81.2 mm   |
| Power                               |   |
| Conventional transformers           | 1500 VA   |
| Electronic transformers             | 1500 W  |
| Materials                           |   |
| Colour of design line               | polar white   |
| Colour                              | polarwhite  |
| Colour                              | white   |
| RAL colour                          | RAL 9010 - Pure white                                   |
| Material                            | Plastic/metal   |
| Fluorescent bulbs control           |   |
| Compact fluorescent lamps           | 500 W   |
| Fluorescent lamps in duo circuit    | 1500 W  |
| LED control                         |   |
| LED                                 | illuminated with blue LED if hotel card is not inserted |

Incandescent bulbs control

|                                     | 1555 11   |
|-------------------------------------|---|
| Installation, mounting              |   |
| Installation mode                   | with spreader claws   |
| Connection                          |   |
| Screw terminals (max.)              | 2 x 2,5 mm²   |
| Type of connection                  | with screw-in lift terminals                                |
| Settings                            |   |
| Delay time incrementally adjustable | 0, 15, 30, 60 s   |
| Setting                             | with potentiometer for incremental adjustment of delay time |
| Equipment                           |   |
| Lighting                            | for illumination  |
| Potential-free                      | with potential-free contact                                 |
| Centre plates / central plates      | with centre plate Ø 58 mm                                   |
| Use cases                           |   |
| Application                         | Light control, Hotel application                            |
| Safety                              |   |
| Protection index IP                 | IP20  |
| REACH conform                       | No  |
| RoHS conform                        | Yes   |
| Halogen free                        | No  |
| Use conditions                      |   |
| Operating temperature               | -550 °C   |
| Storage/transport temperature       | -2570 °C (storage at > 45°C reduces the service life)       |
| Identification                      |   |
| Application, usage                  | Light control   |
| Main design line                    | Serie 1930/R.classic  |
| Secondary design line(s)            | Serie 1930 Series R classic                                 |

| Application, usage       | Light control                |
|--------------------------|------------------------------|
| Main design line         | Serie 1930/R.classic         |
| Secondary design line(s) | Serie 1930, Series R.classic |

## Instructions

Note: When integrating this product into the Serie 1930, the 1gang frame for centre plate Ø 58 mm, order no.: 1382 0... may only be used. Installation in multiple combinations of the Serie 1930 is not possible!
