KNX glass sensor 2g thermostat, display, intg bus coupl. ,KNX-TS sensor, p.wh.

Technical properties

With room temperature controller	Ye
Function	with valve protection function ; for switch, pus button, dimmer, blind and thermostat function
Operating mode	controller operating modes: comfort, standby, nig and frost/heat protection mod
Controls and indicators	
With LED indication	Ye
Number of buttons	
Operation	operation by gently touching the sensor surfaces on the white LE
Indication / display	LED display with symbol display ; display operating mode, controller lockout, room/outsic temperature, time (clock required
Button / push-button	with 2 additional display sensor surface
Connectivity	
Encoding	with button blocking function
Voltage	
Voltage	operation with non-choked output of KNX voltag supply possible (pay attention to curren consumption) ; separate auxiliary power supp neede
Dimensions	
Depth	37.7 mi
Depth	5.7 m
Dimensions (W x H x D)	86 x 160 x 5.7 m
Height	160 m
Width	86 m
Power	
Current consumption	23 m
Measurement	
Value transmitter	value transmitter for dimming, position, brightnes and temperature values 1 and 2 by
Screen	
With display	Ye

RAL colour	RAL 9010 - Pure white
Surface appearance	glossy
Material family	Glass
LED control	
LED	with blue operation LED and 4 white status LED
Installation, mounting	
Installation mode	for vertical mounting
Connection	
Bus coupling unit	with integral bus coupling unit
Bus connection	bus connection via connecting termina
Settings	
Parameterisation	single and two push-button operatior parameterisable ; end customer display scope parameterisable
Scope of delivery	
Bus connection included	Yes
Accessories included	
	with adapter ring for dismantling protection and
Adapters	snadow gap formation
Adapters Matching products	for glass frames in the same "style" for additiona applications, see the Design line B.7 ; for additiona products to complement the installation in matching colours/materials, refer to the Design platform
	for glass frames in the same "style" for additiona applications, see the Design line B.7 ; for additiona products to complement the installation in matching colours/materials, refer to the Design platform
Matching products	for glass frames in the same "style" for additiona applications, see the Design line B.7 ; for additiona products to complement the installation in matching colours/materials, refer to the Design platform S.1/B.2
Matching products Equipment	for glass frames in the same "style" for additiona applications, see the Design line B.7 ; for additiona products to complement the installation in matching colours/materials, refer to the Design platform S.1/B.2
Matching products Equipment Number of actuation points	for glass frames in the same "style" for additiona applications, see the Design line B.7 ; for additiona products to complement the installation in matching colours/materials, refer to the Design platform S.1/B.> 6 Yes for heating and/or cooling mode with/without
Matching products Equipment Number of actuation points With anti-theft/dismantling protection	for glass frames in the same "style" for additiona applications, see the Design line B.7 ; for additiona products to complement the installation in matching colours/materials, refer to the Design platform S.1/B.2 for heating and/or cooling mode with/withour auxiliary step for individual single room temperature control control parameter for heating / cooling unit pre-set
Matching products Equipment Number of actuation points With anti-theft/dismantling protection Heating	for glass frames in the same "style" for additiona applications, see the Design line B.7 ; for additiona products to complement the installation in matching colours/materials, refer to the Design platform S.1/B.2 for heating and/or cooling mode with/withour auxiliary step for individual single room temperature control control parameter for heating / cooling unit pre-set
Matching products Equipment Number of actuation points With anti-theft/dismantling protection Heating Control	for glass frames in the same "style" for additiona applications, see the Design line B.7 ; for additiona products to complement the installation in matching colours/materials, refer to the Design platform S.1/B.x for heating and/or cooling mode with/without auxiliary step for individual single room temperature control control parameter for heating / cooling unit pre-set for continuous (PI) or switched (2-point) contro
Matching products Equipment Number of actuation points With anti-theft/dismantling protection Heating Control Use	for glass frames in the same "style" for additiona applications, see the Design line B.7 ; for additiona products to complement the installation in matching colours/materials, refer to the Design platform S.1/B.3 for heating and/or cooling mode with/withour auxiliary step for individual single room temperature control control parameter for heating / cooling unit pre-set for continuous (PI) or switched (2-point) control Display
Matching products Equipment Number of actuation points With anti-theft/dismantling protection Heating Control Use Differentiation characteristic 2 - Sales Differentiation characteristic 3 - Sales	for glass frames in the same "style" for additional applications, see the Design line B.7 ; for additional products to complement the installation in matching colours/materials, refer to the Design platform S.1/B.2 for heating and/or cooling mode with/withou auxiliary step for individual single room temperature control control parameter for heating / cooling unit pre-set for continuous (PI) or switched (2-point) control Display
Matching products Equipment Number of actuation points With anti-theft/dismantling protection Heating Control Use Differentiation characteristic 2 - Sales Differentiation characteristic 3 - Sales Safety	for glass frames in the same "style" for additiona applications, see the Design line B.7 ; for additiona products to complement the installation in matching colours/materials, refer to the Design platform S.1/B.3 for heating and/or cooling mode with/without auxiliary step for heating and/or cooling mode with/without auxiliary step for individual single room temperature control control parameter for heating / cooling unit pre-set for continuous (PI) or switched (2-point) contro Display integrated bus coupling unit
Matching products Equipment Number of actuation points With anti-theft/dismantling protection Heating Control Use Differentiation characteristic 2 - Sales	for glass frames in the same "style" for additiona applications, see the Design line B.7 ; for additiona products to complement the installation in matching colours/materials, refer to the Design platform S.1/B.3 for heating and/or cooling mode with/withour auxiliary step for individual single room temperature control control parameter for heating / cooling unit pre-set for continuous (PI) or switched (2-point) contro Display integrated bus coupling unit Yes
Matching products Equipment Number of actuation points With anti-theft/dismantling protection Heating Control Use Differentiation characteristic 2 - Sales Differentiation characteristic 3 - Sales Safety REACH conform RoHS conform	for glass frames in the same "style" for additional applications, see the Design line B.7; for additional products to complement the installation in matching colours/materials, refer to the Design platform S.1/B.: S.1/B.: for heating and/or cooling mode with/withou auxiliary step for individual single room temperature control control parameter for heating / cooling unit pre-set for continuous (PI) or switched (2-point) contro Display integrated bus coupling uni Ye:
Matching products Equipment Number of actuation points With anti-theft/dismantling protection Heating Control Use Differentiation characteristic 2 - Sales Differentiation characteristic 3 - Sales Safety REACH conform RoHS conform Use conditions	for glass frames in the same "style" for additional applications, see the Design line B.7; for additional products to complement the installation in matching colours/materials, refer to the Design platform S.1/B.3 for heating and/or cooling mode with/withou auxiliary step for individual single room temperature control control parameter for heating / cooling unit pre-set for continuous (PI) or switched (2-point) contro Display integrated bus coupling unit Yes Yes
Matching products Equipment Number of actuation points With anti-theft/dismantling protection Heating Control Use Differentiation characteristic 2 - Sales Differentiation characteristic 3 - Sales Safety REACH conform	shadow gap formation for glass frames in the same "style" for additiona applications, see the Design line B.7 ; for additiona products to complement the installation in matching colours/materials, refer to the Design platform S.1/B.> for heating and/or cooling mode with/without auxiliary step for heating and/or cooling mode with/without auxiliary step for individual single room temperature control control parameter for heating / cooling unit pre-set ; for continuous (PI) or switched (2-point) contro Display integrated bus coupling unit Yes Yes Sensor ; temperature measurement via interna temperature sensor or external temperature object

Identification

Application, usage	KNX - operating systems
Main design line	KNX - Berker TS Sensor
Secondary design line(s)	Berker TS Sensor ; KNX

Instructions

Information text

Only suitable for KNX.
