

Yes

75643034

 $\ensuremath{\mathsf{KNX}}$  glass sensor 3g thermostat, display, intg bus coupl. ,  $\ensuremath{\mathsf{KNX\text{-TS}}}$  sensor, al.

## **Technical properties**

| Architecture                     |   |
|----------------------------------|---|
| Fixing mode                      | flush-mounting  |
| Functions                        |   |
| With room temperature controller | Yes   |
| Function                         | with valve protection function, for switch, push-<br>button, dimmer, blind and thermostat functions   |
| Operating mode                   | controller operating modes: comfort, standby, night and frost/heat protection mode  |
| Controls and indicators          |   |
| With LED indication              | Yes   |
| Number of buttons                | 0   |
| Operation                        | operation by gently touching the sensor surfaces on the white LED   |
| Indication / display             | LED display with symbol display, display of operating<br>mode, controller lockout, room/outside temperature,<br>time (clock required)                   |
| Button / push-button             | with 2 additional display sensor surfaces   |
| Connectivity                     |   |
| Encoding                         | with button blocking function   |
| Voltage                          |   |
| Voltage                          | operation with non-choked output of KNX voltage<br>supply possible (pay attention to current<br>consumption), separate auxiliary power supply<br>needed |
| Dimensions                       |   |
| Depth                            | 37.7 mm   |
| Depth                            | 5.7 mm  |
| Dimensions (W x H x D)           | 86 x 160 x 5.7 mm   |
| Height                           | 160 mm  |
| Width                            | 86 mm   |
| Power                            |   |
| Current consumption              | 23 mA   |
| Measurement                      |   |
| Value transmitter                | value transmitter for dimming, position, brightness<br>and temperature values 1 and 2 byte  |
| Screen                           |   |

With display

| Materials  Colour of design line         | ataua atau 11.1   |
|--|---|
| Colour of design line                    | glass aluminium   |
| Colour                                   | aluminium   |
| RAL colour                               | RAL 9006 - White aluminium  |
| Material                                 | glass   |
| Type of surface treatment                | Tampography   |
| Material family                          | Glass   |
| LED control                              |   |
| LED                                      | with blue operation LED and 6 white status LEDs   |
| Installation, mounting                   |   |
| Installation mode                        | for vertical mounting   |
| Connection                               |   |
| Bus coupling unit                        | with integral bus coupling unit   |
| Bus connection                           | bus connection via connecting terminal  |
| Settings                                 |   |
|  | single and two push-button operation  |
| Parameterisation                         | parameterisable, end customer display scope<br>parameterisable  |
| Scope of delivery                        |   |
| Bus connection included                  | Yes   |
| Accessories included                     |   |
| Adapters                                 | with adapter ring for dismantling protection and shadow gap formation   |
| Matching products                        | for glass frames in the same "style" for additional applications, see the Design line B.7, for additional products to complement the installation in matching colours/materials, refer to the Design platform S.1/B.x |
| Equipment                                |   |
| Number of actuation points               | 8   |
| With anti-theft/dismantling protection   | Yes   |
|  | for heating and/or cooling mode with/without  |
| Heating                                  | auxiliary step  |
| Control                                  | for individual single room temperature control,<br>control parameter for heating / cooling unit pre-set,<br>for continuous (PI) or switched (2-point) control   |
| Use                                      |   |
| Differentiation characteristic 2 - Sales | Display   |
| Differentiation characteristic 3 - Sales | integrated bus coupling unit  |
| Safety                                   |   |
| Protection index IP                      | IP20  |
| REACH conform                            | Yes   |
| RoHS conform                             | Yes   |
| Use conditions                           |   |
|  |   |

| Operating temperature    | -545 °C  |
|--------------------------|--|
| Temperature              | additional connection for external temperature<br>sensor, temperature measurement via internal<br>temperature sensor or external communication<br>object |
| Temperature              | - Object   |
| Energy efficiency class  | IV (2%)  |
| Identification           |  |
| Application, usage       | KNX - operating systems  |
| Main design line         | KNX - Berker TS Sensor   |
| Secondary design line(s) | Berker TS Sensor, KNX  |
| Instructions             |  |

Only suitable for KNX.
