

75663591

Technical properties

With room temperature controller	Yes
Function	for switch, push-button, dimmer, blind and thermostat functions ; button help function can be activated ; with valve protection function
Timers	with room temperature timer and 2-week time functions
Operating mode	controller operating modes: comfort, standby, night and frost/heat protection mode
Compatibility	
Extension unit	extension unit for light scene push-buttor
Controls and indicators	
With LED indication	Yes
Dimming	area dimming
Number of buttons	3
Operation	one push-button operation for switching, pushing shutters and dimming; blind operating concepts short-long-short and long-short parameterisable
Indication / display	display of operating mode, controller lockout, room/outside temperature, time (clock required); LC display with symbols and illumination, switchable via object
Button / push-button	with 2 additional display buttons
Connectivity	
Encoding	with button blocking function
Dimensions	
Width of rail mounted device (RMD)	0 modules
Height	119.6 mm
Width	88.5 mm
Measurement	
Value transmitter	value transmitter for dimming, position, brightness and temperature values 1 and 2 byte
Materials	
Colour of design line	glass polar white
RAL colour	RAL 9010 - Pure white
	Glass
Material family	GldSS

with blue operation LED and 6 white status LEDs $\,$

(labelling field illumination)

LED

For flush-mounted bus coupling unit for B.IQ with
thermostal
presence button parameterisable to extend comfort ; end customer display scope parameterisable single and two push-button operation
parameterisable
programmable from ETS2, V1.2a
for installation in single standard wall boxes
for additional products to complement the installation in matching colours/materials, refer to the Design platform S.1/B.x; for glass frames in the same "style" for additional applications, see the Design line B.7
product type: B.IQ
for heating and/or cooling mode with/without auxiliary step
for continuous (PI) or switched (2-point) control of max. 2 control circuits ; for individual single room temperature control ; control parameter for heating , cooling unit pre-set
Display
with flash-controller technology
with hash-controller technology
with hash-controller technology
with dismantling protection alarm telegram after disconnection from bus
with dismantling protection alarm telegram after disconnection from bus
with dismantling protection alarm telegram after disconnection from bus coupling unit 1 bit, 1 or 2 byte
with dismantling protection alarm telegram after disconnection from bus coupling unit 1 bit, 1 or 2 byte -545 °C temperature measurement via internal temperature sensor and/or external communication object (weighting ratio parameterisable); provision of the internal temperature value via communication
with dismantling protection alarm telegram after disconnection from bus coupling unit 1 bit, 1 or 2 byte -545 °C temperature measurement via internal temperature sensor and/or external communication object (weighting ratio parameterisable); provision of the internal temperature value via communication object
with dismantling protection alarm telegram after disconnection from bus coupling unit 1 bit, 1 or 2 byte -545 °C temperature measurement via internal temperature sensor and/or external communication object (weighting ratio parameterisable); provision of the internal temperature value via communication object
with dismantling protection alarm telegram after disconnection from bus coupling unit 1 bit, 1 or 2 byte -545 °C temperature measurement via internal temperature sensor and/or external communication object (weighting ratio parameterisable); provision of the internal temperature value via communication object IV (2%)
with dismantling protection alarm telegram after disconnection from bus coupling unit 1 bit, 1 or 2 byte -545 °C temperature measurement via internal temperature sensor and/or external communication object (weighting ratio parameterisable); provision of the internal temperature value via communication object IV (2%)
with dismantling protection alarm telegram after disconnection from bus coupling unit 1 bit, 1 or 2 byte -545 °C temperature measurement via internal temperature sensor and/or external communication object (weighting ratio parameterisable); provision of the internal temperature value via communication object IV (2%) KNX - operating systems product family: push-button
with dismantling protection alarm telegram after disconnection from bus coupling unit 1 bit, 1 or 2 byte -545 °C temperature measurement via internal temperature sensor and/or external communication object (weighting ratio parameterisable); provision of the internal temperature value via communication object IV (2%) KNX - operating systems product family: push-button
