

80161785

Push-button 1gang, RGB LED, int. temp. sensor, KNX-S.1/B.3/B.7, f. ant.  $\pm$  al.

## **Technical properties**

F				

With room temperature controller	No
Easy link functions	operating concept "independent push-button" function predefined; operating concept for "roller shut ter/blind" function predefined; switching of scenes (18) possible; Orientation LED can be controlled via object; brightness value of the status LED fo day/nighttime operation preset, status LED fo day/nighttime operation can be controlled via object; integrated temperature sensor with output of the measured values; Colour of status LED uniformly adjustable for complete device; push-button functions: including switching, dimming, roller shut ter/blind, timer, priority, temperature setpoin adjustment, operating mode changeove
Function	Function for manual interruption of automatic func tions already triggered
Function	operating surfaces as buttons (single-surface operation) and rockers (two-surface operation); the brightness of status LEDs are individually adjustable for button/rocker function; brightness value of the status LEDs for day/nighttime operation adjustable via object or manually; value transmitter for dimming, position, brightness temperature values and 2 byte; button/rocker functions for switching dimming, roller shutter/blind, value transmitter 1/2 byte, room thermostat extension unit, priority scene, automatic control deactivation; integrated temperature sensor with output of the measured values via object; button functions for switching dimming, roller shutter/blind, timer, value transmitter 1/2 byte, room thermostat extension unit priority, scene, 2-channel mode, step switch, automatic control deactivation; rocker functions for switching, dimming, roller shutter/blind, value transmitter 1/2 byte, room thermostat extension unit priority, scene, 2-channel mode, automatic control deactivation; parameter defineable lock function 3-step switch, function for incremental selection oup to 7 stored values; Status LED configurable in its colour per buttor
Compatibility	
Extension unit	extension unit for light scene push-buttor
Controls and indicators	
With LED indication	Ye
Number of buttons	1
Operation	operating areas configurable as one or two-area operation
Electric current	

Labelling field length (W x H)	52.3 x 52.8 mm
Height	55.3 mm
Width	55.8 mm
Power	
Power consumption, KNX	≈ 150 mW
Measurement	
Value transmitter	value transmitter for dimming, position, brightness and temperature values 1 and 2 byte
Screen	
With display	No
Materials	
Colour of design line	aluminium/anthracite
Colour independent of design lines	for anthracite and aluminium
Material for printing	Paper
Surface appearance	glossy
Type of surface treatment	untreated
Material family	Plastic
LED control	
LED	with white operating LED ; with 2 RGB status LEDs per rocker
Connection	
Bus coupling unit	for bus coupling unit flush-mounted
Settings	
Supported configuration modes	system, easy
Parameterisation	single and two push-button operation parameteris- able
Scope of delivery	
Bus connection included	No
Equipment	
Number of actuation points	2
With anti-theft/dismantling protection	Yes
Product type:	product type: push-button 1gang
Use	
Differentiation characteristic 1 - Sales	with labelling field
Differentiation characteristic 2 - Sales	and RGB LED
Differentiation characteristic 3 - Sales	with integrated temperature sensor
Safety	
REACH conform	Yes
RoHS conform	Yes
Halogen free	No

## **Use conditions**

-2070 °C (storage at > 45°C reduces the service life integrated temperature sensor with output of the measured values via object integrated temperature sensor with output of the measured values via object integrated temperature sensor with output of the measured values via object integrated temperature sensor with output of the measured values via object integrated temperature sensor with output of the measured values via object integrated temperature sensor with output of the measured values via object integrated temperature sensor with output of the measured values via object integrated temperature sensor with output of the measured values via object integrated temperature sensor with output of the measured values via object integrated temperature sensor with output of the measured values via object integrated temperature sensor with output of the measured values via object integrated temperature sensor with output of the measured values via object integrated temperature sensor with output of the measured values via object integrated temperature sensor with output of the measured values via object integrated temperature sensor with output of the measured values via object integrated temperature sensor with output of the measured values via object integrated temperature sensor with output of the measured values via object integrated temperature sensor with output of the measured values via object integrated temperature sensor with output of the measured values via object integrated temperature sensor with output of the measured values via object integrated temperature sensor with output of the measured values via object integrated temperature sensor with output of the measured values via object integrated temperature sensor with output of the measured values via object integrated temperature sensor with output of the measured values via object integrated temperature sensor with output of the measured values via object integrated temperature sensor with output of the measured values via object integrated val		
Storage/transport temperature life  integrated temperature sensor with output of the measured values via object  Identification  Application, usage KNX - operating system Product family product family: push-butto  Main design line KNX - Berker S.1/B.3/B.  Secondary design line(s) KNX; Berker S.1; Berker B.3; Berker B.  Instructions  Use only in conjunction with bus coupling unit 800	Operating temperature	-545 °C
Temperature measured values via object  Identification  Application, usage KNX - operating system  Product family product family: push-butto  Main design line KNX - Berker S.1/B.3/B.  Secondary design line(s) KNX ; Berker S.1 ; Berker B.3 ; Berker B.  Instructions  Use only in conjunction with bus coupling unit 800	Storage/transport temperature	-2070 °C (storage at > 45°C reduces the service life)
Application, usage  Product family  product family: push-butto  Main design line  KNX - Berker S.1/B.3/B.  Secondary design line(s)  KNX; Berker S.1; Berker B.3; Berker B.  Instructions  Use only in conjunction with bus coupling unit 800	Temperature	integrated temperature sensor with output of the measured values via object
