

80262160

R.x KNX (TP+EASY) Movement detector module 1,10m

Technical properties

Max. temporisation	30 mr
Easy link functions	switching of scenes (18) possible ; additiona channel for independent of brightness detector mode ; Motion detector functions: switching dimming,roller shutter/blind, timer ; push-buttor functions: including switching, dimming, roller shutter/blind, timer, priority, operating mode changeover
Function	Presence simulation ; with party function
Function	Specification of the controller operating mode Push-button functions for switching, dimming, blind value transmitter, scene, priority ; integrated buttor for manual control of bus functions can be configured ; parameter defineable lock functior
Slide switch	with slide switch for OFF/automatic/ON
Operating mode	Master/Slave operation for covering large detectior areas ; with test mode ; with 3 operating modes automatic/permanent ON/permanent OFF
Configuration	
Channels	two function channels for brightness-dependent functions ; additional channel for independent o brightness detector mode
Controls and indicators	
Push-buttons	with button for automatic/permanent ON/permanent OFF
Voltage	
Operating voltage over bus	2132 V DC
Electric current	
Bus current consumption (data transfer)	10 mA
Dimensions	
Optimum mounting height	1.1 m
Measurement	
Detection field, rectangular shaped	≈ 12 x 16 m
Reach distance	
Max. transmission range frontally	12 m
Max. transmission range sideways	8 m
Detection	

Detection angle, settable	each side ≈ 4590 °
Detection angle horizontal	90 / 180 9
Sensor type	detector of movement
Materials	
Surface appearance	othe
Lighting control	
Response brightness, adjustable	≈ 51000 k
LED control	
LED	Operating mode display via status LED red/green/orango
Incandescent bulbs control	
Max. power with incandescent lamps	0 V
Installation, mounting	
Installation mode	with dismantling protection ; with spreader claw
Connection	
Bus coupling unit	with integral bus coupling un
Bus connection	bus connection via connecting termina
Settings	
Supported configuration modes	system, eas
Min. temporisation	10
Delay time, adjustable	10 s30 m
Use	
Differentiation characteristic 2 - Sales	with integrated temperature senso
Differentiation characteristic 3 - Sales	with integral bus coupling uni
Safety	
REACH conform	Ν
RoHS conform	Ye
Halogen free	Ν
Use conditions	
Operating temperature	-545 °
Storage/transport temperature	-2070 °
Identification	
Application, usage	KNX - sensor
Secondary design line(s)	KNX ; Berker R.1 ; Berker R.
Instructions	
Information text	Continuous direct sunlight penetrating the upward pointing detection plane can result in failure of the motion detector. Only suitable for indoor areas
