DALI/DSI control insert, electronics

Technical properties

Type of control unit	Push button
Functions	
Function	automatic detection of DALI/DSI devices ; Remote control with KNX radio hand-held/wall-transmitters in combination with KNX radio buttons
Switching	for switching and controlling electr. ballasts and Tronic transformer with DALI/DSI interface
Operating mode	automatic selection of operating mode (active/passive
Controls and indicators	
Control	supplies the system voltage for additional DALI users when connected to mains voltage
Main electrical features	
Frequency	50/60 Hz
Voltage	
Operating voltage	230 V AG
DALI voltage	16 V DC (10,5 22,5 V=
DALI voltage Electric current Control current	
Electric current	40 mA
Electric current	40 mA
Electric current Control current Output current	40 mA max. 40 mA
Electric current Control current Output current Fuse	40 mA max. 40 mA
Electric current Control current Output current Fuse Fuse	40 mA max. 40 mA with electronic short-circuit and overload protection
Electric current Control current Output current Fuse Fuse Dimensions	40 mA max. 40 mA with electronic short-circuit and overload protection 32 mm
Electric current Control current Output current Fuse Fuse Dimensions Insertion depth	40 mA max. 40 mA with electronic short-circuit and overload protection 32 mm 32 mm
Electric current Control current Output current Fuse Fuse Dimensions Insertion depth Installation depth, flush-mounted boxes	40 mA max. 40 mA with electronic short-circuit and overload protection 32 mm 32 mm 32 mm
Electric current Control current Output current Fuse Fuse Dimensions Insertion depth Installation depth, flush-mounted boxes Claw guidance installation depth	40 mA max. 40 mA with electronic short-circuit and overload protection 32 mm 32 mm 32 mm
Electric current Control current Output current Fuse Fuse Dimensions Insertion depth Installation depth, flush-mounted boxes Claw guidance installation depth Housing installation depth	40 mA max. 40 mA with electronic short-circuit and overload protection 32 mm 32 mm 32 mm 32 mm 32 mm
Electric current Control current Output current Fuse Fuse Dimensions Insertion depth Installation depth, flush-mounted boxes Claw guidance installation depth Housing installation depth Power	16 V DC (10,5 22,5 V=) 40 mA max. 40 mA with electronic short-circuit and overload protection 32 mm 32 mm 32 mm 22 mm 22 mm 22 mm

Colour	white
Material / surface	no conductive connection between supporting ring and spreading claws
Connection	
Screw terminals (max.)	2 x 1,5/1 x 2,5 mm²
Quantity of DALI devices	max. 20
Type of connection	with screw terminals
Number of substations	unlimited
Cable	
DALI cable length at 1.5 mm ²	max. 300 m
Cable length, extensions	max. 100 m
Equipment	
Substation input	Yes
Number of DALI/DSI devices, passive operation	max. 64
Brightness	switch-on brightness level can be stored safe after power failure
DALI	Bus communication in Broadcast mode according to IEC 62386-102
Safety	
REACH conform	No
RoHS conform	Yes
Halogen free	No
Use conditions	
Operating temperature	-545 °C
Storage/transport temperature	-2060 °C
Energy-saving	low intrinsic energy requirement
Relative humidity (without condensation)	065 % (without condensation)
Identification	
Application, usage	Light control ; KNX radio- operating systems
Main design line	Electronics platform
