

KNX radio blind time switch quicklink, display, S.1/B.3/B.7, ant., matt

Technical properties

Astronomic time shift	± 2 h
Running time	2 mr
Random number generator for holiday program	± 15 mr
ETS additional functions	ETS additional functions: +6 scenes, operating mode, status display, 2 x alarn
Function	reset function (to factory setting) ; with keylock Party function, no execution of automatic, radio and extension unit commands (lock-out protection) Configurable transmission and/or reception behaviour ; easy additional functions: +6 scenes, 2 up/down operating mode
Light scenes	slat position storable for scene ; scene opening via KNX radio appliances
Quicklink functions	quicklink functions for integration into the individual group and master control of blinds/shutters quicklink functions: blind, 2 scenes, forced control up/down push-buttor
Slide switch	with switchover manual/automatic mode
Power reserve	≈ 8
Controls and indicators	
Indication / display	indication of the application module/inser compatibility in the display ; LC display contrast is adjustable ; LC display illuminated during operation
Connectivity	
Radio protocol	KNX Radio
Dimensions	
Width of rail mounted device (RMD)	0 module:
Power	
Radio transmission power	< 10 mV
Measurement	
Running accuracy	± 3 min/yea
Battery	
Power reserve [years]	01
Detection	

```
Materials
```

Colour of design line	anthracit
Surface appearance	mat
Connection	
Bus connection	integration in the KNX radio/TP gateway, surface mounted, into the KNX TP syster
Settings	
Minimum slat adjustment time	≈ 150 m
Lamella adjustment on signal duration	< 1
Lamella adjustment on button-press	< 0.5
Programs	astro programme for sunrise/sundown switching wit city/country or co-ordinate input, individual adaptable ; standalone programme, radio an extension unit commands are not executed ; holida programme for random variation of the operatio times in automatic operatio
Time	with automatic summer-/winter time switching (ca be switched of
Equipment	
Number of operation times for up/down	20/da
Number of radio channels	
Number of quicklink links	max. 20 transmitter/receive
Self-retaining for 2 min on signal length	> 1
Self-retaining for 2 min on button-press	> 0.5
Change-over time for change of direction	< 0.6
Cylinder	2 independent preset programme memorie
