

KNX radio timer quicklink, display, S.1/B.3/B.7, p. white glossy

## **Technical properties**

| Functions                          |   |
|------------------------------------|---|
| Astronomic time shift              | ± 2 h   |
| Random number generator            | ± 15 mn   |
| ETS additional functions           | ETS additional functions: +6 scenes, operating mode<br>on/off, scene loading, time dimming value, push-<br>button, status display   |
| Function                           | reset function (to factory setting) ; Configurable<br>transmission and/or reception behaviour ; Party<br>function, no execution of automatic, radio and<br>extension unit commands (switch protection) ; with<br>keylock ; easy additional functions: +6 scenes,<br>dimming, 1 up/down button control, priority |
| Quicklink functions                | quicklink functions: switching, 2 scenes, time switching, NO contact push-button, forced control  |
| Slide switch                       | with switchover manual/automatic mode   |
| Power reserve                      | ≈ 8 h   |
| Controls and indicators            |   |
| Indication / display               | LC display illuminated during operation ; indication<br>of the application module/insert compatibility in the<br>display ; LC display contrast is adjustable  |
| Connectivity                       |   |
| Radio protocol                     | KNX Radio   |
| Dimensions                         |   |
| Width of rail mounted device (RMD) | 0 modules   |
| Power                              |   |
| Radio transmission power           | < 10 mW   |
| Measurement                        |   |
| Running accuracy                   | ± 3 min/year  |
| Battery                            |   |
| Power reserve [years]              | 0 a   |
| Materials                          |   |
| Colour of design line              | polar white   |
| Surface appearance                 | glossy  |
| Connection                         |   |
| Bus connection                     | integration in the KNX radio/TP gateway, surface-<br>mounted, into the KNX TP system  |

Settings

astro programme for sunrise/sundown switching with city/country or co-ordinate input, individually adaptable ; standalone programme, radio and extension unit commands are not executed ; holiday programme for random variation of the switching times in automatic operation

with automatic summer-/winter time switching (can be switched off)

Time

Programs

| Time                                     | be switched on)  |
|--|--|
| Equipment                                |  |
| Number of radio channels                 | 1  |
| Number of quicklink links                | max. 20 transmitter/receiver                                       |
| Number of switching times for on/off     | 20   |
| Cylinder                                 | 2 independent preset programme memories,<br>individually adaptable |
| Use                                      |  |
| Differentiation characteristic 2 - Sales | with display   |
| Safety                                   |  |
| REACH conform                            | No   |
| RoHS conform                             | Yes  |
| Halogen free                             | No   |
| Protection                               | with dismantling protection  |
| Use conditions                           |  |
| Operating temperature                    | -545 °C  |
| Energy-saving                            | low intrinsic energy requirement                                   |
| Relative humidity (without condensation) | 065 % (without condensation)                                       |
| Identification                           |  |
| Application, usage                       | Light control ; KNX radio- operating systems                       |
| Main design line                         | Berker S.1/B.3/B.7   |
| Secondary design line(s)                 | Electronics platform ; Berker S.1 ; Berker B.3 ;<br>Berker B.7     |
