

L5123

Rivet for clamping strength hole 4mm halogenfree made of POM 4-7mm light grey

Technical properties

Compatibility

|                       |                           |
|-----------------------|---------------------------|
| Product compatibility | Ba6, DNG, LKG,HNG,VK-flex |
|-----------------------|---------------------------|

Dimensions

|                       |      |
|-----------------------|------|
| Drilled hole diameter | 4 mm |
|-----------------------|------|

Materials

|                           |           |
|---------------------------|-----------|
| Material group            | plastic   |
| Material quality          | Other     |
| Type of surface treatment | untreated |

Standards

|                         |                      |
|-------------------------|----------------------|
| European directive RoHS | voluntary compliance |
|-------------------------|----------------------|

Safety

|               |     |
|---------------|-----|
| REACH conform | Yes |
| RoHS conform  | Yes |
