

L6961VERZ

Internal corner,FWK 90/99160, galvanized

Technical properties

Dimensions

Internal height	103 mm
Trunking height	196 mm
Length	347 mm
Internal width	154 mm
Trunking width	250 mm
Measure a	347 mm

Cover, door

Lid with softlip	-
------------------	---

Materials

Material group	steel, plaster
----------------	----------------

Mecanic features

Bending angle	90 °
---------------	------

Installation, mounting

Base punching	With base punching
---------------	--------------------

Cable

Internal/useful cross section	15862 mm ²
-------------------------------	-----------------------

Settings

Angle range	90 °
-------------	------

Accessories included

Accessory configuration	Base and lid
-------------------------	--------------

Safety

REACH conform	No
RoHS conform	Yes
certificationnormfireprotductsystem	DIN 4102-12
classificationnormfireprotductsystem	DIN 4102-12
Fire resistance class	E 30 - E 90
