

S230-22X

External universal transmitter

Technical properties

Functions

Number of built-in opening contacts	0
-------------------------------------	---

Connectivity

Connection mode	radio TwinBand
-----------------	----------------

Dimensions

Dimensions (LLxwxhh)	130 x 80 x 35 mm
----------------------	------------------

Battery

life of battery	5 years
-----------------	---------

Power supply

Supply Voltage	Lithium Battery 3,6 V / 4 Ah
----------------	------------------------------

Connection

Maximum length of each connection loop	10 m
--	------

Number of input loops	1
-----------------------	---

Maximum number of external opening contacts per loop	5
--	---

Use conditions

Operating temperature	-25...70 °C
-----------------------	-------------
