

Module 2 inputs flush mounted 230V KNX QL

Technical properties

Bus module detachable	No
	ETS additional functions: +6 scenes, operating mode
ETS additional functions	on/off, 1 up/down button control, push-button, 2 s alarm, status displa
	reset function (to factory setting) ; easy additiona functions: +6 scenes, on/off operating mode, 1
Function	up/down button contro
	quicklink functions: switching, dimming, blind, 2
Ouicklink functions	scenes, switching time, NO contact push-button priority, up/down push-butto
	priority, up/down pasit-battor
Configuration	
Pre-assembled	confectioned, with 4-core cable
Controls and indicators	
Indicator lamp	ye
Control	Activation, for example, through switch, push-buttor wind sensor, precipitation sensor, time switcl
Button / push-button	with configuration buttor
Connectivity	
Radio protocol	KNX Radi
Receiver category	
	with 2 independent, mains supplied, binary inputs fo
Inputs	potential-free contact
Main electrical features	
Frequency	50/60 H:
Voltage	
Input voltage	5 \
Operating voltage	230 V A
Electric current	
Number of entry circuits	
Intensity by input	0.03 m/
Dimensions	
Dimensions (LLxwwxhh)	48 x 53 x 30 mn
Dimensions (Ø x H)	53 x 27 mr
Frequency	
Transmission frequency	868 MH

Radio transmission frequency	868.3 MH
Length	
Max distance to switches	5 mn
Power	
Total power loss under IN	0.9 V
Radio transmission power	< 10 mV
Measurement	
Input scanning voltage	per channel 5 '
Reach distance	
Max. transmission range	30m in house / 100m free fiel
Materials	
RAL colour	RAL 7035 - Light gre
LED control	
LED	with configuration LE
Installation, mounting	
Mounting type	flus
Installation mode	for installation behind flush-mounted insert
Connection	
Connection cross-sect. flexible conductor	0,5 / 2,5mm
Connection cross-sect. rigid cable	0,5 / 2,5mm
Conductor cross-section	0.752.5 mm
Connection to	push-button / switc
Type of connection	with screw-in lift termina
Bus connection	integration in the KNX radio/TP gateway, surface mounted, into the KNX TP syster
Cable	
Binary cable length, extendable to	max. 10 r
Line length	20 cr
Settings	
Programming	toolless quicklink configuration using buttons an LED displa
Equipment	
Equipment	
Equipment Number of radio channels	
Equipment Number of radio channels Number of quicklink links	max. 20 transmitter/receive
Equipment Number of radio channels Number of quicklink links Use	max. 20 transmitter/receive min. 50 m

Use conditions

Operating temperature

Energy-saving

-5...45 °C

low intrinsic energy requirement
