# Motion and Presence Detectors

:hager

**Hager's energy efficient detectors guarantee the most accurate detection in all situations.**

**Housed in a discrete design, they can be quickly and securely mounted and are suitable for residential and commercial applications.**

### Standard detectors

Ø 6 m detection

#### The entry-level solution

- Integrated motion and presence detection
- Detection perimeter: Ø 6 m
- Flush mounted or surface mounted

Part Number:  
**EE804A, EE805A**

### Mini detectors

Ø 10 m detection

#### The discreet solution

- Integrated motion and presence detection
- Detection perimeter: Ø 10 m
- Flush mounted

Part Number:  
**EER501**

## Large area detectors Ø 20 m detection

### The right solution for commercial buildings

- Integrated motion and presence detection
- Detection perimeter: Ø 20 m
- Flush mounted or surface mounted

Part Number:  
**EER503/EER513**

## Corridor detectors 30 x 5 m detection

### The right solution for high traffic areas

- Motion detection
- Detection perimeter: 30 x 5 m, specially designed for high traffic areas.
- Flush mounted or surface mounted

Part Number:  
**EER505/EER515**

## High Ceiling detectors 22 x 12 m detection

### The right solution for high ceilings

- Motion detection
- Detection perimeter: 22 x 12 m, specially designed for warehouses and high-ceilinged buildings
- Surface mounted

Part Number:  
**EER518**

# A range designed to suit all sites

Our detectors suit different environments, with options that include presence and/or motion sensors plus a choice of flush or surface-mounting. We also offer specific systems for buildings with high ceilings and a very discreet mini version.

## Homes

- Entrance
- Hallway
- Basement and garage

Recommended detectors:  
**Standard and Mini**

## Multi-occupancy dwellings

- Common areas:  
entrance, hallway and staircase
- Garage blocks

Recommended detectors:  
**Standard, 20 metres, Corridor**

## Offices

- Office floors
- Meeting rooms
- Individual offices
- High traffic areas

Recommended detectors:  
**Standard, Mini, Large Area, Corridor**

## Warehouses, supermarkets

- High traffic areas
- Storage areas

Recommended detectors:  
**High Ceiling**

# Choose a solution that is both simple and effective

## 01

### Detection performance

The sharp perimeter and increased sensitivity ensure optimal detection.

The standard, mini and 20 m versions incorporate both presence and motion sensors for greater efficiency.

## 02

### A perfect result

Discreet design with almost invisible mounts.

Our patented claws won't damage ceilings, and the zone blocking stickers to place on the lens will ensure a professional result.

The mini version is ideal for areas requiring discretion.

## 03

### Easy Installation

Our patented claw fixings are designed for easy assembly, disassembly and adjustment.

#### Easy cable connections

with horizontal or vertical infeeds.

## Ø 20 m detector: flush mounted

### Claw fittings

- Held outside of the ceiling for easy configuration
- Ceilings are not damaged, even if the device should come loose
- Comfortable grip, easy and safe to install

### Protective bracket

- To secure access to terminal blocks.

### Supplied with tightening clamp

- Ensures cable infeeds are held securely.

### Quick connect terminals

- For tool-free cable fixing.

### Loop through terminals

- So you can connect several lighting circuits.

## Ø 20 m detector: surface mounted

### Connection base and sensing head can be separated

- Practical adjustment at ground level.
- Head and base clip together easily.
- Sensing head can be changed on its own.
- Base suitable for installation in standard surface mounting boxes.

### Mounting screws and "direction of installation" sticker supplied

- For practical and error-free installation, particularly for the corridor and hall options that are specific to motion detection.

## Installation

# Install with ease

## Flush mounted

### Hole cut-out diameter

Standard version:  
75 mm

Mini version:  
50/54 mm

20 metres version:  
68 mm

### The connection

Screwless  
terminal

With loop through  
function

Choice of master/slave/  
override function

### Ceiling mounting

Mounting claws  
20 m and corridor

Standard and mini  
claws mounting

Settings accessible  
from the side

## Surface mounting

### Fixing

Standard surface mounting box

### The connection

Screwless terminal

With loop through function

Choice of master/slave/override function

### Ceiling mounting

Base and sensing head can be separated

Settings accessible from the side of the sensing head

## Motion detection/ presence detection
