

16773500

LED unit 230 V, for switches/push-buttons, W.1, red

Technical characteristics

Controls and indicators

Rocker switch/rocker push-button for rocker switches/rocker push-buttons

Main electrical features

Rated voltage 230 V AC

Frequency 50 Hz

Power

Current consumption 0.4 mA

Endurance

Service life of the LED ≈ 50000 h

LED control

LED very long LED service life

Equipment

Lighting for monitoring circuit

Use cases

Application Light control

Use conditions

Operating temperature -40...30 °C

Storage/transport temperature -50...50 °C

Identification

Application, usage Light control, Surface-mounted wet-room installation, Flush-mounted wet-room installation

Secondary design line(s) Module inserts, ACCESSORIES
