

1680

LED unit N terminal for switch, light control, black

Technical characteristics

Main electrical features

Nominal voltage 230 V

Electric current

Rated current 0.9 mA

Materials

Colour independent of design lines black

Lighting control

Type of lamp LED

LED control

Rate current per LED ≈ 0.9 mA

Connection

Type of connection with screw terminal

Equipment

Lighting for monitoring circuit per series

Use cases

Application Light control

Safety

REACH conform Yes

RoHS conform Yes

Halogen free Yes

Identification

Application, usage Light control

Main design line Light control

Secondary design line(s) Light control ; ACCESSORIES

Instructions

Special note text Refer to the overview for the matching flush-mounted inserts.
