## LED unit N terminal for switch, light control, black

### Technical characteristics

#### Main electrical features

Nominal voltage	230 V
-----------------	-------

#### Electric current

Rated current	0.9 mA
---------------	--------

#### Materials

Colour independent of design lines	black
------------------------------------	-------

#### Lighting control

Type of lamp	LED
--------------	-----

#### LED control

Rate current per LED	≈ 0.9 mA
----------------------	----------

#### Connection

Type of connection	with screw terminal
--------------------	---------------------

#### Equipment

Lighting	for monitoring circuit per series
----------	-----------------------------------

#### Use cases

Application	Light control
-------------	---------------

#### Safety

REACH conform	Yes
---------------	-----

RoHS conform	Yes
--------------	-----

Halogen free	Yes
--------------	-----

#### Identification

Application, usage	Light control
--------------------	---------------

Main design line	Light control
------------------	---------------

Secondary design line(s)	Light control ; ACCESSORIES
--------------------------	-----------------------------

#### Instructions

Special note text	Refer to the overview for the matching flush-mounted inserts.
-------------------	---------------------------------------------------------------
