Product data sheet 3315407003

3315407003

VGA soc. out., K.5, al., matt, lacq.

Technical characteristics

Outlet	with straight outlet
Plug type	S-VGA compatible
Connectors / jacks	with 15pole D-subminiature jack (front)
Dimensions	
Insertion depth	12 mn
Frequency	
Frequency range video	max. 160 MH;
Screen	
Resolution	max. 1280 x 1024 p:
Materials	
Colour of design line	aluminiun
Material / workmanship	lacquered
Installation mode	without spreader claws ; for screw fastening
Connection	
Type of connection	with backside jack for connecting to pre-assemble VGA cable
Connection	with 15pole D-subminiature double jacl
Equipment	
	with supporting ring
Supporting plate / Supporting ring	with supporting rine
Supporting plate / Supporting ring	with supporting ring Communication technology
Supporting plate / Supporting ring Identification Application, usage	Communication technolog
Equipment Supporting plate / Supporting ring Identification Application, usage Main design line Instructions	
Supporting plate / Supporting ring Identification Application, usage Main design line	Communication technolog

bending radii, Art. No. 1068-02 or 9062-74
