

SCHUKO soc. out., screw-in lift terminals, B.7, al., matt, lacq.

Technical characteristics

Configuration Number of modules 1 Main electrical features Nominal voltage 250 V AC Frequency 50/60 Hz Rated voltage 150 V AC Frequency 50/60 Hz Rated current 16 A Electric current Rated current 16 A Dimensions Insertion depth 32 mm Cover, door Cover Central cover plate Materials Colour of design line aluminium Material / workmanship lacquered Surface appearance mate Installation, mounting Installation mode with spreader claws Connection Connection terminals according to IEC 60884-1 Type of connection with screw terminals Use Differentiation characteristic 3 - Sales Screw-in lift terminals Safety KE protection code against mecanical impacts 05 REACH conform Yes	Architecture	
Number of modules Main electrical features Nominal voltage 250 V AC Frequency 50/60 Hz Rated current 16 A Electric current Rated current 16 A Dimensions Insertion depth 32 mm Cover, door Cover Central cover plate Materials Colour of design line aluminium Material / workmanship lacquered Surface appearance mate Installation, mounting Installation mode with spreader claws Connection Connection terminals according to IEC 60884-1 Connection terminals according to VDE 0620-1 Type of connection with screw terminals Use Differentiation characteristic 3 - Sales Screw-in lift terminals Safety KE protection code against mecanical impacts 05 REACH conform Yes	Design	according to DIN 49440
Main electrical features Nominal voltage 250 V AC Rated voltage 250 V AC Frequency 50/60 Hz Rated current 16 A Electric current Rated current 16 A Dimensions Insertion depth 32 mm Cover, door Cover Central cover plate Materials Colour of design line aluminium Material / workmanship lacquered Surface appearance matt Installation, mounting Installation mode with spreader claws Connection Connection terminals according to IEC 60884-1 Connection terminals according to VDE 0620-1 Type of connection with screw terminals Use Differentiation characteristic 3 - Sales Screw-in lift terminals Safety IK protection code against mecanical impacts 05 REACH conform Yes	Configuration	
Nominal voltage 250 V AC Rated voltage 250 V AC Frequency 50/60 Hz Rated current 16 A Electric current Rated current 16 A Dimensions Insertion depth 32 mm Cover, door Cover Central cover plate Materials Colour of design line aluminium Material / workmanship lacquered Surface appearance matt Installation, mounting Installation mode with spreader claws Connection Connection terminals according to IEC 60884-1 Connection terminals according to VDE 0620-1 Type of connection with screw terminals Use Differentiation characteristic 3 - Sales Screw-in lift terminals Safety IK protection code against mecanical impacts 05 REACH conform Yes	Number of modules	1
Rated voltage 250 V AC Frequency 50/60 Hz Rated current 16 A Electric current Rated current 16 A Dimensions Insertion depth 32 mm Cover, door Cover Central cover plate Materials Colour of design line aluminium Material / workmanship lacquered Surface appearance matt Installation, mounting Installation mode with spreader claws Connection Connection terminals according to IEC 60884-1 Connection terminals according to VDE 0620-1 Type of connection with screw terminals Use Differentiation characteristic 3 - Sales Screw-in lift terminals Safety IK protection code against mecanical impacts 05 REACH conform Yes	Main electrical features	
Frequency 50/60 Hz Rated current 16 A Electric current Rated current 16 A Dimensions Insertion depth 32 mm Cover, door Cover Central cover plate Materials Colour of design line aluminium Material / workmanship lacquered Surface appearance matt Installation, mounting Installation mode with spreader claws Connection Connection terminals according to IEC 60884-1 Connection terminals according to VDE 0620-1 Type of connection with screw terminals Use Differentiation characteristic 3 - Sales Screw-in lift terminals Safety IK protection code against mecanical impacts 05 REACH conform Yes	Nominal voltage	250 V
Rated current Electric current Rated current The Action of Electric current Rated current Dimensions Insertion depth Cover, door Cover Central cover plate Materials Colour of design line Material / workmanship Surface appearance Installation, mounting Installation, mounting Installation mode With spreader claws Connection Connection Connection terminals Connection terminals Connection terminals According to IEC 60884-1 Type of connection With screw terminals Use Differentiation characteristic 3 - Sales Safety IK protection code against mecanical impacts O5 REACH conform Yes	Rated voltage	250 V AC
Electric current Rated current Dimensions Insertion depth Cover, door Cover Central cover plate Materials Colour of design line aluminium Material / workmanship lacquered Surface appearance matt Installation, mounting Installation mode with spreader claws Connection Connection Connection terminals according to IEC 60884-1 Type of connection with screw terminals Use Differentiation characteristic 3 - Sales Screw-in lift terminals Safety IK protection code against mecanical impacts O5 REACH conform	Frequency	50/60 Hz
Rated current 16 A Dimensions Insertion depth 32 mm Cover, door Cover Central cover plate Materials Colour of design line aluminium Material / workmanship lacquered Surface appearance matt Installation, mounting Installation mode with spreader claws Connection Connection Connection terminals according to IEC 60884-1 Connection terminals according to VDE 0620-1 Type of connection with screw terminals Use Differentiation characteristic 3 - Sales Screw-in lift terminals Safety IK protection code against mecanical impacts 05 REACH conform Yes	Rated current	16 A
Dimensions Insertion depth 32 mm Cover, door Cover Central cover plate Materials Colour of design line aluminium Material / workmanship lacquered Surface appearance matt Installation, mounting Installation mode with spreader claws Connection Connection Connection terminals according to IEC 60884-1 Connection terminals according to VDE 0620-1 Type of connection with screw terminals Use Differentiation characteristic 3 - Sales Screw-in lift terminals Safety IK protection code against mecanical impacts 05 REACH conform Yes	Electric current	
Insertion depth Cover, door Cover Central cover plate Materials Colour of design line aluminium Material / workmanship lacquered Surface appearance matt Installation, mounting Installation mode with spreader claws Connection Connection Connection terminals according to IEC 60884-1 Connection terminals according to VDE 0620-1 Type of connection with screw terminals Use Differentiation characteristic 3 - Sales Screw-in lift terminals Safety IK protection code against mecanical impacts 05 REACH conform Yes	Rated current	16 A
Cover Central cover plate Materials Colour of design line aluminium Material / workmanship lacquered Surface appearance matt Installation, mounting Installation mode with spreader claws Connection Connection Connection terminals according to IEC 60884-1 Connection terminals according to VDE 0620-1 Type of connection with screw terminals Use Differentiation characteristic 3 - Sales Screw-in lift terminals Safety IK protection code against mecanical impacts 05 REACH conform Yes	Dimensions	
Materials Colour of design line aluminium Material / workmanship lacquered Surface appearance matt Installation, mounting Installation mode with spreader claws Connection Connection terminals according to IEC 60884-1 Connection terminals according to VDE 0620-1 Type of connection with screw terminals Use Differentiation characteristic 3 - Sales Screw-in lift terminals Safety IK protection code against mecanical impacts 05 REACH conform Yes	Insertion depth	32 mm
Materials Colour of design line aluminium Material / workmanship lacquered Surface appearance matt Installation, mounting Installation mode with spreader claws Connection Connection terminals according to IEC 60884-1 Connection terminals according to VDE 0620-1 Type of connection with screw terminals Use Differentiation characteristic 3 - Sales Screw-in lift terminals Safety IK protection code against mecanical impacts 05 REACH conform Yes	Cover, door	
Colour of design line aluminum Material / workmanship lacquered Surface appearance matt Installation, mounting Installation mode with spreader claws Connection Connection terminals according to IEC 60884-1 Connection terminals according to VDE 0620-1 Type of connection with screw terminals Use Differentiation characteristic 3 - Sales Screw-in lift terminals Safety IK protection code against mecanical impacts 05 REACH conform Yes	Cover	Central cover plate
Material / workmanship lacquered Surface appearance matt Installation, mounting Installation mode with spreader claws Connection Connection terminals according to IEC 60884-1 Connection terminals according to VDE 0620-1 Type of connection with screw terminals Use Differentiation characteristic 3 - Sales Screw-in lift terminals Safety IK protection code against mecanical impacts 05 REACH conform Yes	Materials	
Surface appearance matter Installation, mounting Installation mode with spreader claws Connection Connection terminals according to IEC 60884-1 Connection terminals according to VDE 0620-1 Type of connection with screw terminals Use Differentiation characteristic 3 - Sales Screw-in lift terminals Safety IK protection code against mecanical impacts 05 REACH conform Yes	Colour of design line	aluminium
Installation, mounting Installation mode with spreader claws Connection Connection terminals according to IEC 60884-1 Connection terminals according to VDE 0620-1 Type of connection with screw terminals Use Differentiation characteristic 3 - Sales Screw-in lift terminals Safety IK protection code against mecanical impacts 05 REACH conform Yes	Material / workmanship	lacquered
Installation mode with spreader claws Connection Connection terminals according to IEC 60884-1 Connection terminals according to VDE 0620-1 Type of connection with screw terminals Use Differentiation characteristic 3 - Sales Screw-in lift terminals Safety IK protection code against mecanical impacts 05 REACH conform Yes	Surface appearance	matt
Connection Connection terminals according to IEC 60884-1 Connection terminals according to VDE 0620-1 Type of connection with screw terminals Use Differentiation characteristic 3 - Sales Screw-in lift terminals Safety IK protection code against mecanical impacts 05 REACH conform Yes	Installation, mounting	
Connection terminals according to IEC 60884-1 Connection terminals according to VDE 0620-1 Type of connection with screw terminals Use Differentiation characteristic 3 - Sales Screw-in lift terminals Safety IK protection code against mecanical impacts 05 REACH conform Yes	Installation mode	with spreader claws
Connection terminals according to VDE 0620-1 Type of connection with screw terminals Use Differentiation characteristic 3 - Sales Screw-in lift terminals Safety IK protection code against mecanical impacts 05 REACH conform Yes	Connection	
Type of connection with screw terminals Use Differentiation characteristic 3 - Sales Screw-in lift terminals Safety IK protection code against mecanical impacts 05 REACH conform Yes	Connection terminals	according to IEC 60884-1
Use Differentiation characteristic 3 - Sales Safety IK protection code against mecanical impacts REACH conform Yes	Connection terminals	according to VDE 0620-1
Differentiation characteristic 3 - Sales Safety IK protection code against mecanical impacts 05 REACH conform Yes	Type of connection	with screw terminals
Safety IK protection code against mecanical impacts 05 REACH conform Yes	Use	
IK protection code against mecanical impacts 05 REACH conform Yes	Differentiation characteristic 3 - Sales	Screw-in lift terminals
impacts 05 REACH conform Yes	Safety	
		05
RoHS conform Yes	REACH conform	Yes
	RoHS conform	Yes

Identification

Main design line	Berker S.1/B.3/B.7
