

## 450210

## Aerial soc. 2hole single box, 1930/glass/R.classic

## **Technical characteristics**

| Functions                          |   |
|------------------------------------|---|
| Function                           | Suitable for HDTV   |
| Connectivity                       |   |
| Reception / transmission           | for terrestrial reception ; for digital and analogue transmission                         |
| Voltage                            |   |
| Voltage                            | direct voltage conducting (IN / IEC jack female)  |
| Frequency                          |   |
| Broadband technology               | 52400 MHz   |
| Resistance                         |   |
| Wave impedence                     | 75 Ω  |
| Attenuation                        |   |
| Tap loss at 2150 MHz               | 5 dB  |
| Tap loss at 860 MHz                | 4 dB  |
| Installation, mounting             |   |
| System                             | for single and distributor SAT systems ; for community, DVB-T and broadband cable systems |
| Connection                         |   |
| Type of connection                 | with plug-in terminals  |
| Equipment                          |   |
| Supporting plate / Supporting ring | external eyelets on the supporting ring can be<br>broken off for round designs            |
| Standards                          |   |
| General standards                  | EN 50083-2 and EN 60728-4   |
| Safety                             |   |
| Protective screen                  | according to EN 50083-2, Class A  |
| REACH conform                      | Yes   |
| RoHS conform                       | Yes   |
| Halogen free                       | Yes   |
| Use conditions                     |   |
| Operating temperature              | -2555 °C  |

## Identification

| Application, usage | Communication technology |
|--------------------|--------------------------|
| Main design line   | Communication technology |
|                    |                          |
|                    |                          |
|                    |                          |
|                    |                          |
|                    |                          |
|                    |                          |
|                    |                          |
|                    |                          |
|                    |                          |
|                    |                          |
|                    |                          |
|                    |                          |
|                    |                          |
|                    |                          |
|                    |                          |
|                    |                          |
|                    |                          |
|                    |                          |
