

75040004

KNX data interface USB flush-mtd, KNX, black

Technical characteristics

Compatibility

Compatibility compatible with USB 1.1/2.0 transmission protocols

System requirements: system requirements: Windows 2000 or later

Connectivity

Connectors / jacks with B-type USB socket for data traffic (voltage supply via PC)

Voltage

Operating voltage over bus 21...32 V DC

Dimensions

Width of rail mounted device (RMD) 0 modules

Storage

Data transmission rate max. 9.6 kBd

Materials

Colour independent of design lines black

Surface appearance matt

Installation, mounting

Installation mode without spreader claws

Cable

USB cable length max. 5 m

Settings

Supported configuration modes system

Programming programmable from ETS3, V1.0 ; For addressing, programming and diagnosis of KNX components

Equipment

Interface type USB

Product type: product type: USB

Software

Update with flash-controller technology

Safety

REACH conform Yes

RoHS conform Yes

Use conditions

Operating temperature

-5...45 °C

Identification

Application, usage

KNX - system units

Product family

product family: communication

Main design line

KNX
