75040004

KNX data interface USB flush-mtd, KNX, black

Technical characteristics

Architecture

Fixing mode	flush-mounting

Compatibility

Compatibility	compatible with USB 1.1/2.0 transmission protocols
System requirements:	system requirements: Windows 2000 or later

Connectivity

Connectors / jacks	with B-type USB socket for data traffic (voltage supply via PC)

Voltage

Operating voltage over bus	21...32 V DC

Dimensions

Width of rail mounted device (RMD)	0 modules

Storage

Data transmission rate	max. 9.6 kBd

Materials

Colour independent of design lines	black
Colour	black
RAL colour	RAL 9005 - Jet black
Material	Plastic/metal
Surface appearance	matt

Installation, mounting

Installation mode	without spreader claws

Cable

USB cable length	max. 5 m

Settings

Supported configuration modes	system
Programming	programmable from ETS3, V1.0, For addressing, programming and diagnosis of KNX components

Equipment

Interface type	USB
Product type:	product type: USB

Software

Subject to technical modifications

Update	with flash-controller technology

Safety

Protection index IP	IP20

Use conditions

Operating temperature	-5…45 °C

Identification

Application, usage	KNX - system units
Product family	product family: communication
Main design line	KNX

Update	with flash-controller technology

Safety

Protection index IP	IP20

Use conditions

Operating temperature	-5…45 °C

Subject to technical modifications
