## Thermostat with push-button interface, Q.x, anthracite velvety

### **Technical characteristics**

reclifical characteristics	
Functions	
Operating mode	operating modes:comfort, standby, night lowering, frost/heat protection, dewpoint displayed with LED
Controls and indicators	
Button / push-button	presence button and setting knob can be programmed to have no functions; with programming button and red programming LED; with presence button for switching between comfort and standby mode
Connectivity	

Connectivit	1
-------------	---

	with 4 independent binary inputs for potential-free
	contacts e.g. window magnetic contact; 4 binary
	inputs or 2-3 binary inputs and 1-2 outputs
Binary inputs	parameterisable

# Voltage

Operating voltage over bus	21	.32 ۱	<b>/</b> [	D(	0
----------------------------	----	-------	------------	----	---

### **Electric current**

Bus current consumption (data transfer)	≈ 10 mA
Output current per channel	max. 0.8 mA

### Materials

Colour of design line	anthracite
Material / workmanship	lacquered
Surface appearance	velvety

# **LED** control

	with status LEDs: red for heating, blue for cooling
LED	and yellow for activation

# Installation, mounting

Installation mode	e without spreader c	laws

# Connection

Type of connection

Sensor cable length	50 m
Conductor cross-section (flexible)	0.31 mm <sup>2</sup>
Conductor cross-section (rigid)	1.5 mm²

#### Bus connection bus connection via connecting terminal

### Cable

Cable length, inputs/outputs max. 5 m	Cable length, inputs/outputs	max.	5 m
---------------------------------------	------------------------------	------	-----

Binary inputs / outputs with screw terminals

Settings	
Supported configuration modes	system
Parameterisation	valve protection can be defined ; conduct can be defined for bus voltage return
Equipment	
Product type:	product type: thermostat
Set value control by setting knob	± 05 K
Heating	for heating and/or cooling mode ; heating or cooling possible in 2 stages
Control	for continuous (PI) or switched (2-point) control ; for individual single room temperature control
Use	
Differentiation characteristic 2 - Sales	with setting knob
Differentiation characteristic 3 - Sales	with integral bus coupling unit
Safety	
REACH conform	Yes
RoHS conform	Yes
Halogen free	No
Protection	with dismantling protection
Use conditions	
Operating temperature	-545 °C
Energy efficiency class	IV (2%)
Identification	
Application, usage	KNX - sensors
Product family	Product family: heating, ventilation, air conditioning
Main design line	KNX - Berker Q.1/Q.3
Secondary design line(s)	KNX ; Berker Q.1 ; Berker Q.3 ; Berker Q.7 ; Berker Q.9
Instructions	
Special note text	Binary input 4 parameter defineable for temperature

sensor, order no. 161.

Special note text
