

glass aluminium

75643034

 $\ensuremath{\mathsf{KNX}}$ glass sensor 3g thermostat, display, intg bus coupl. , $\ensuremath{\mathsf{KNX\text{-TS}}}$ sensor, al.

Technical characteristics

Functions	
With room temperature controller	Yes
Function	with valve protection function ; for switch, push- button, dimmer, blind and thermostat functions
Operating mode	controller operating modes: comfort, standby, night and frost/heat protection mode
Controls and indicators	
With LED indication	Yes
Number of buttons	0
Operation	operation by gently touching the sensor surfaces on the white LED
Indication / display	LED display with symbol display ; display of operating mode, controller lockout, room/outside temperature, time (clock required)
Button / push-button	with 2 additional display sensor surfaces
Commentation	
Connectivity	with hy the p blooking from this
Encoding	with button blocking function
Voltage	
	operation with non-choked output of KNX voltage supply possible (pay attention to current consumption) ; separate auxiliary power supply
Voltage	needed
Dimensions	
Depth	37.7 mm
Depth	5.7 mm
Dimensions (W x H x D)	86 x 160 x 5.7 mm
Height	160 mm
Width	86 mm
Power	
Current consumption	23 mA
Measurement	
Value transmitter	value transmitter for dimming, position, brightness and temperature values 1 and 2 byte
Screen	
With display	Yes

Materials

Colour of design line

	glossy
Material family	Glass
LED control	
LED	with blue operation LED and 6 white status LED
Installation, mounting	
Installation mode	for vertical mounting
Connection	
Bus coupling unit	with integral bus coupling uni
Bus connection	bus connection via connecting termina
Settings	
Parameterisation	single and two push-button operatior parameterisable ; end customer display scope parameterisable
Scope of delivery	
Bus connection included	Ye
Accessories included	
Adapters	with adapter ring for dismantling protection and shadow gap formation
Matching products Equipment	for glass frames in the same "style" for additional applications, see the Design line B.7; for additional products to complement the installation in matching colours/materials, refer to the Design platform S.1/B.
Equipment	
Number of actuation points	
Number of actuation points With anti-theft/dismantling protection	
With anti-theft/dismantling protection	Ye. for heating and/or cooling mode with/withou
·	for heating and/or cooling mode with/withou auxiliary step for individual single room temperature control control parameter for heating / cooling unit pre-set
With anti-theft/dismantling protection Heating	for heating and/or cooling mode with/withou auxiliary step for individual single room temperature control control parameter for heating / cooling unit pre-set
With anti-theft/dismantling protection Heating Control	for heating and/or cooling mode with/withou auxiliary step for individual single room temperature control control parameter for heating / cooling unit pre-set for continuous (PI) or switched (2-point) control
With anti-theft/dismantling protection Heating Control Use	for heating and/or cooling mode with/withou auxiliary step for individual single room temperature control control parameter for heating / cooling unit pre-set for continuous (PI) or switched (2-point) control Display
With anti-theft/dismantling protection Heating Control Use Differentiation characteristic 2 - Sales	for heating and/or cooling mode with/withou auxiliary step for individual single room temperature control control parameter for heating / cooling unit pre-set for continuous (PI) or switched (2-point) control Display
With anti-theft/dismantling protection Heating Control Use Differentiation characteristic 2 - Sales Differentiation characteristic 3 - Sales	for heating and/or cooling mode with/withou auxiliary step for individual single room temperature control control parameter for heating / cooling unit pre-set for continuous (PI) or switched (2-point) control Displayintegrated bus coupling unit
With anti-theft/dismantling protection Heating Control Use Differentiation characteristic 2 - Sales Differentiation characteristic 3 - Sales Safety	for heating and/or cooling mode with/withou auxiliary step for individual single room temperature control control parameter for heating / cooling unit pre-set for continuous (PI) or switched (2-point) control Display integrated bus coupling unit
With anti-theft/dismantling protection Heating Control Use Differentiation characteristic 2 - Sales Differentiation characteristic 3 - Sales Safety REACH conform	for heating and/or cooling mode with/withou auxiliary step for individual single room temperature control control parameter for heating / cooling unit pre-set for continuous (PI) or switched (2-point) control Display integrated bus coupling unit
With anti-theft/dismantling protection Heating Control Use Differentiation characteristic 2 - Sales Differentiation characteristic 3 - Sales Safety REACH conform RoHS conform	for heating and/or cooling mode with/withou auxiliary step for individual single room temperature control control parameter for heating / cooling unit pre-set for continuous (PI) or switched (2-point) control Display integrated bus coupling unit Ye Ye
With anti-theft/dismantling protection Heating Control Use Differentiation characteristic 2 - Sales Differentiation characteristic 3 - Sales Safety REACH conform RoHS conform Use conditions	for heating and/or cooling mode with/withou auxiliary step for individual single room temperature control control parameter for heating / cooling unit pre-set for continuous (PI) or switched (2-point) control Display integrated bus coupling unit Yes Yes additional connection for external temperature sensor; temperature measurement via internatemperature sensor or external communication
With anti-theft/dismantling protection Heating Control Use Differentiation characteristic 2 - Sales Differentiation characteristic 3 - Sales Safety REACH conform RoHS conform Use conditions Operating temperature	for heating and/or cooling mode with/withou auxiliary step for individual single room temperature control control parameter for heating / cooling unit pre-set for continuous (PI) or switched (2-point) control Displayintegrated bus coupling unity pre-set for continuous (PI) or switched (2-point) control Pisplayintegrated bus coupling unity pre-set for continuous (PI) or switched (2-point) control Pisplayintegrated bus coupling unity pre-set for continuous (PI) or switched (2-point) control Pisplayintegrated bus coupling unity pre-set for continuous (PI) or switched (2-point) control Pisplayintegrated bus coupling unity pre-set for continuous (PI) or switched (2-point) control Pisplayintegrated bus coupling unity pre-set for continuous (PI) or switched (2-point) control Pisplayintegrated bus coupling unity pre-set for continuous (PI) or switched (2-point) control Pisplayintegrated bus coupling unity pre-set for continuous (PI) or switched (2-point) control Pisplayintegrated bus coupling unity pre-set for continuous (PI) or switched (2-point) control Pisplayintegrated bus coupling unity pre-set for continuous (PI) or switched (2-point) control cont

Application, usage	KNX - operating systems
Main design line	KNX - Berker TS Sensor
Secondary design line(s)	Berker TS Sensor ; KNX
Instructions	
Information text	Only suitable for KNX.
