

Glass

75665591

## **Technical characteristics**

| Functions                          |   |
|------------------------------------|---|
| With room temperature controller   | Yes   |
| Function                           | for switch, push-button, dimmer, blind and<br>thermostat functions ; with valve protection function<br>; button help function can be activated                  |
| Timers                             | with room temperature timer and 2-week timer functions  |
| Operating mode                     | controller operating modes: comfort, standby, night and frost/heat protection mode  |
| Compatibility                      |   |
| Extension unit                     | extension unit for light scene push-button  |
| Controls and indicators            |   |
| With LED indication                | Yes   |
| Dimming                            | area dimming  |
| Number of buttons                  | 5   |
| Operation                          | blind operating concepts short-long-short and long-<br>short parameterisable ; one push-button operation<br>for switching, pushing, shutters and dimming        |
| Indication / display               | LC display with symbols and illumination, switchable via object; display of operating mode, controller lockout, room/outside temperature, time (clock required) |
| Button / push-button               | with 2 additional display buttons   |
| ·                                  |   |
| Connectivity                       |   |
| Encoding                           | with button blocking function   |
| Dimensions                         |   |
| Width of rail mounted device (RMD) | 0 modules   |
| Height                             | 178.8 mm  |
| Width                              | 88.5 mm   |
| Measurement                        |   |
| Value transmitter                  | value transmitter for dimming, position, brightness<br>and temperature values 1 and 2 byte  |
| Screen                             |   |
| With display                       | Yes   |
| Materials                          |   |
| Colour of design line              | glass polar white   |
| RAL colour                         | RAL 9010 - Pure white   |
|                                    |   |

Material family

| LED control                              |   |
|--|---|
| LED                                      | with blue operation LED and 10 white status LEDs<br>(labelling field illumination)  |
| Connection                               |   |
| Bus coupling unit                        | For flush-mounted bus coupling unit for B.IQ with thermostat  |
| Settings                                 |   |
|  | end customer display scope parameterisable;<br>presence button parameterisable to extend comfort<br>; single and two push-button operation  |
| Parameterisation Programming             | parameterisable programmable from ETS2, V1.2a   |
| Frogramming                              | programmable nom E132, V1.2a  |
| Scope of delivery                        |   |
| Bus connection included                  | No  |
| Accessories included                     |   |
| Box                                      | for installation in single standard wall boxes  |
| Matching products                        | for glass frames in the same "style" for additional applications, see the Design line B.7; for additional products to complement the installation in matching colours/materials, refer to the Design platform S.1/B.x |
| Equipment                                |   |
| Product type:                            | product type: B.IQ  |
| Heating                                  | for heating and/or cooling mode with/without<br>auxiliary step  |
| Control                                  | for individual single room temperature control;<br>control parameter for heating / cooling unit pre-set;<br>for continuous (PI) or switched (2-point) control of<br>max. 2 control circuits                           |
| Use                                      |   |
| Differentiation characteristic 2 - Sales | Display   |
| Software                                 |   |
| Update                                   | with flash-controller technology  |
| Safety                                   |   |
| Protection                               | with dismantling protection   |
| Alarm                                    | alarm telegram after disconnection from bus<br>coupling unit 1 bit, 1 or 2 byte   |
| Use conditions                           |   |
| Operating temperature                    | -545 °C   |
| Temperature                              | provision of the internal temperature value via<br>communication object ; temperature measurement<br>via internal temperature sensor and/or externa<br>communication object (weighting ration<br>parameterisable      |
| Energy efficiency class                  | IV (2%)   |
|  |   |
| Identification                           | WALV  |
| Application, usage                       | KNX - operating systems   |
| Product family                           | product family: push-buttor   |

| Release issue            | 2.6               |
|--------------------------|-------------------|
| Main design line         | KNX - Berker B.IQ |
| Secondary design line(s) | Berker B.IQ ; KNX |
