

75740013

## Technical characteristics

### Functions

Timers time switch (weekly) with 16 channels each with 8 switching times

### Main electrical features

Frequency 50/60 Hz

### Voltage

Auxiliary voltage 230 V AC

Operating voltage over bus 21...32 V DC

### Dimensions

Depth 46 mm

Height 141 mm

Width 221 mm

### Measurement

Limit values max. 32

### Screen

Resolution graphical display 320 x 240 / 240 x 320 px

TFT screen size 5.7"

### Storage

Graphics memory ≈ 4 MB

### Materials

Colour independent of design lines anthracite

Material Aluminium

### Connection

Type of connection with screw terminals

Bus connection bus connection via connecting terminal

### Equipment

Clock with synchronisable integral real-time clock with date

### Use conditions

Operating temperature -5...45 °C

Logic operations (cascadable) 80

### Identification
