

80040011

Bus coupling unit flush-mtd, ext. temp. sensor, KNX

Technical characteristics

Controls and indicators

Button / push-button with illuminated programming button

Connectivity

Interface as interface between KNX user module and bus line

Voltage

Operating voltage over bus 21...32 V DC

Electric current

Bus current consumption (data transfer) ≈ 10 mA

Dimensions

Insertion depth 32 mm

Width of rail mounted device (RMD) 0 modules

LED control

LED with red programming LED

Installation, mounting

Installation mode with spreader claws

Connection

Number of contacts 4

Bus connection bus connection via connecting terminal

Settings

Supported configuration modes system, easy

Equipment

Product type: product type: bus coupling unit

Buzzer/siren with integrated buzzer for acoustic identification of the device within the system

Use

Differentiation characteristic 3 - Sales external temperature sensor

Safety

REACH conform No

RoHS conform Yes

Halogen free No

Protection with dust protection flap for user interface (AST)

Use conditions

Operating temperature	-5...45 °C
-----------------------	------------

Storage/transport temperature	-20...70 °C (storage at > 45°C reduces the service life)
-------------------------------	----------------------------------------------------------

Temperature	additional connection for external temperature sensor
-------------	-------------------------------------------------------

Identification

Application, usage	KNX - system units
--------------------	--------------------

Product family	product family: system components
----------------	-----------------------------------

Main design line	KNX
------------------	-----
