

Push-button 2gang, + RGB LED, internal temp. sensor, KNX - R.1/R.3, black glossy

## Technical characteristics

| With room temperature controller | No   |
|----------------------------------|--|
| Easy link functions              | operating concept "independent push-button<br>function predefined ; operating concept for "rolle<br>shutter/blind" function predefined ; switching o<br>scenes (18) possible ; Orientation LED can be<br>controlled via object ; brightness value of the status<br>LED for day/nighttime operation preset, status LEE<br>for day/nighttime operation can be controlled via<br>object ; integrated temperature sensor with outpu<br>of the measured values ; Colour of status LEE<br>uniformly adjustable for complete device ; push<br>button functions: including switching, dimming, rolle<br>shutter/blind, timer, priority, temperature setpoin<br>adjustment, operating mode changeove  |
| Function                         | Function for manual interruption of automatic functions already triggered  |
| Function                         | operating surfaces as buttons (single-surface<br>operation) and rockers (two-surface operation) ; the<br>brightness of status LEDs are individually adjustable<br>for button/ rocker function ; brightness value of the<br>status LEDs for day/nighttime operation adjustable<br>via object or manually ; value transmitter for<br>dimming, position, brightness temperature values 1<br>and 2 byte ; button/rocker functions for switching<br>dimming, roller shutter/blind, value transmitter 1/2<br>byte, room thermostat extension unit, priority<br>scene, automatic control deactivation ; integrated<br>temperature sensor with output of the measured<br>values via object ; button functions for switching<br>dimming, roller shutter/blind, timer, value<br>transmitter 1/2 byte, room thermostat extensior<br>unit, priority, scene, 2-channel mode, step switch<br>automatic control deactivation ; rocker functions fo<br>switching, dimming, roller shutter/blind, value<br>transmitter 1/2 byte, room thermostat extensior<br>unit, priority, scene, 2-channel mode, automatic<br>control deactivation ; parameter defineable lock<br>function ; 3-step switch, function for incrementa<br>selection of up to 7 stored values ; Status LED<br>configurable in its colour per buttor |
| Compatibility                    | outoncion unit for light opens much hutton   |
| Extension unit                   | extension unit for light scene push-buttor   |
| Controls and indicators          |  |
| With LED indication              | Yes  |
| Number of buttons                | 2  |
| Operation                        | operating areas configurable as one or two-area<br>operatior   |
| Electric current                 |  |
|                                  |  |

| Power consumption, KNX                   | ≈ 150 mW   |
|--|--|
| Measurement                              |  |
| Value transmitter                        | value transmitter for dimming, position, brightness<br>and temperature values 1 and 2 byte |
| Screen                                   |  |
| With display                             | No   |
| Materials                                |  |
| Colour independent of design lines       | black  |
| Surface appearance                       | glossy   |
| Surface protection                       | Brilliant  |
| Type of surface treatment                | untreated  |
| Material family                          | Plastic  |
| LED control                              |  |
| LED                                      | with white operating LED ; with 2 RGB status LEDs per rocker                               |
| Connection                               |  |
| Bus coupling unit                        | for bus coupling unit flush-mounted  |
| Settings                                 |  |
| Supported configuration modes            | system, easy   |
| Parameterisation                         | single and two push-button operation<br>parameterisable                                    |
| Scope of delivery                        |  |
| Bus connection included                  | No   |
| Equipment                                |  |
| Number of actuation points               | 4  |
| With anti-theft/dismantling protection   | No   |
| Product type:                            | product type: push-button 2gang  |
| Use                                      |  |
| Differentiation characteristic 2 - Sales | and RGB LED  |
| Differentiation characteristic 3 - Sales | with integrated temperature sensor   |
| Safety                                   |  |
| Halogen free                             | No   |
| Protection                               | with dismantling protection  |
| Alarm                                    | alarm telegram after disconnection from bus coupling unit 1 bit or 1 byte                  |
| Use conditions                           |  |
| Operating temperature                    | -545 °C  |
| Storage/transport temperature            | -2070 °C (storage at > 45°C reduces the service life)                                      |
| Temperature                              | integrated temperature sensor with output of the measured values via object                |
|  |  |

## Identification

| Instructions             |  |  |
|--------------------------|--|--|
| Secondary design line(s) | KNX ; Berker R.3 ; Serie 1930 ; Series R.classic |  |
| Main design line         | KNX - Berker R.1/R.3/Serie 1930/R.classic        |  |
| Product family           | product family: push-button                      |  |
| Application, usage       | KNX - operating systems                          |  |

Special note text

Use only in conjunction with bus coupling unit 8004 00 01!
