

Light control

85142173

Button 2gang, K.5, stainless steel matt, lacq.

Technical characteristics

Contro	Is and	indica	tors

Operation with 2-push-buttons operation concept per series

Main electrical features

Nominal voltage 12 V

Voltage

Operating voltage via insert

Materials

Colour of design linestainless steelColourstainless steelMaterial / workmanshiplacqueredMaterialthermoplastic

Safety

Protection with dismantling protection

Use conditions

Operating temperature -5...45 °C

Relative humidity (without condensation) 0...65 % (without condensation)

Identification

Application, usage

Main design line

Secondary design line(s)

Berker K.5
