## KNX radio wall-transmitter 1gang flat quicklink, R.1/R.3, black glossy

#### **Technical characteristics**

| Fund | ctions |
|------|--------|
|------|--------|

| ETS additional functions | ETS additional functions: +6 scenes, operating mode on/off, push-button, status display, dimming value                           |
|--------------------------|--|
| Function                 | reset function (to factory setting), easy additional<br>functions: +6 scenes, on/off operating mode, 1<br>up/down button control |
| Quicklink functions      | quicklink functions: switching, dimming, blind, 2 scenes, time switching, NO contact push-button, memory                         |

### **Controls and indicators**

|                      | operating areas configurable as one or two-area |
|----------------------|---|
| Operation            | operation                                       |
| Button / push-button | with configuration button                       |

#### Connectivity

| Radio protocol | KNX Radio      |   |
|----------------|----------------|---|
| Rece           | eiver category | 2 |

## **Dimensions**

# Frequency

Radio transmission frequency 868.3 MHz

### Power

Radio transmission power < 10 mW

### **Battery**

| Battery service life [years] | ≈ 5 |
|------------------------------|-----|
|                              |     |

Battery / storage battery with lithium coin cell battery 3 V type: CR 2430

## Materials

| 217,217,217          |
|----------------------|
| black                |
| RAL 9005 - Jet black |
|                      |

Material for printing PC-PMA black

# LED control

Material

with transmission status and battery status LED,
LED red/green/orange, with configuration LED

Installation, mounting

| Installation mode                        | for flat surface mounting and extension of combinations   |
|--|---|
| Connection                               |   |
| Bus connection                           | integration in the KNX radio/TP gateway, surface-<br>mounted, into the KNX TP system  |
| Settings                                 |   |
| Programming                              | toolless quicklink configuration using buttons and<br>LED display, top and bottom operating area are<br>freely configurable |
| Equipment                                |   |
| Number of radio channels                 | 2   |
| Number of quicklink links                | max. 20 transmitter/receiver  |
| Type of configuration                    | Laserdruck  |
| Transmitter duty cycle                   | 1 %   |
| Safety                                   |   |
| REACH conform                            | No  |
| Protection                               | with dismantling protection   |
| Use conditions                           |   |
| Operating temperature                    | -545 °C   |
| Energy-saving                            | low intrinsic energy requirement  |
| Relative humidity (without condensation) | 065 % (without condensation)  |
| Identification                           |   |
| Application, usage                       | KNX radio- operating systems  |
| Main design line                         | Berker R.1/R.3/R.8/Serie 1930/R.classic   |
| Secondary design line(s)                 | Electronics platform, Berker R.1, Berker R.3, Serie<br>1930, Series R.classic   |
