

85656226

KNX radio wall-transmitter 2gang flat quicklink, Q.x, ant. velvety, lacq.

## **Technical characteristics**

ETS additional functions	ETS additional functions: +6 scenes, operating mode on/off, push-button, status display, dimming value
Function	reset function (to factory setting) ; easy additional functions: +6 scenes, on/off operating mode, 1 up/down button control
Quicklink functions	quicklink functions: switching, dimming, blind, 2 scenes, time switching, NO contact push-button, memory
Controls and indicators	
Operation	operating areas configurable as one or two-area operation
Button / push-button	with configuration button
Connectivity	
Radio protocol	KNX Radio
Receiver category	2
Dimensions	
Assembling height	14 mm
Frequency	
Radio transmission frequency	868.3 MHz
Power	
Radio transmission power	< 10 mW
Battery	
Battery service life [years]	≈ 5
Battery / storage battery	with lithium coin cell battery 3 V type: CR 2430
Materials	
Colour of design line	anthracite
Material / workmanship	lacquered

LED battery status LED, red/green/orange

## Installation, mounting

Surface appearance

**LED** control

for flat surface mounting and extension of Installation mode

combinations

with configuration LED; with transmission status and

velvety

integration in the KNX radio/TP gateway, surface- mounted, into the KNX TP system
toolless quicklink configuration using buttons and LED display ; top and bottom operating areas are freely configurable
