

EE808

IP30

Remote control for customer for presence detectors 360° monobloc

Technical characteristics

Architecture

Number of keys 6

Configuration

Module télécommande

Compatibility

Sensors associated EE81x, TCC52x

Controls and indicators

Button / push-button with green "on" and red "off" button (on/off, dimmer function) ; with 4 function buttons (calling up/saving light scene)

Dimensions

Dimensions (LLxwxhh) 70x10x120

Reach distance

Max. transmission range 3 m

Battery

Number and type of replacement batteries 1x 3V CR2032

Detection

IR RC6 code

LED control

LED additional acknowledgement LED for displaying the IR transmission

Safety

REACH conform No

RoHS conform Yes

Halogen free No

Instructions

Information text Scope of functions dependent on the controlled presence detector.
