

2.6 kW

## ESC425

## Contactor 25A, 4NO, 230V~50Hz

## **Technical characteristics**

| Type of order                                  | Not applicable |
|--|----------------|
| Number of poles                                | 4 P            |
| Configuration                                  |                |
| Number of modules                              | 2              |
| Main electrical features                       |                |
| Rated operational voltage Ue                   | 400 V          |
| Frequency                                      | 50 Hz          |
| Voltage  |                |
| Rated insulation voltage                       | 440 V          |
| DC control voltage                             | 0 V            |
| Command voltage AC                             | 230 V          |
| Rated impulse withstand voltage                | 4 kV           |
| Electric current                               |                |
| Rated current                                  | 25 A           |
| Thermal rated current outside of housings      | 25 A           |
| Acceptable current load with AC7 category<br>A | 25 A           |
| Acceptable current load with AC7 category<br>B | 8.5 A          |
| Dimensions                                     |                |
| Depth of installed product                     | 60 mm          |
| Height of installed product                    | 83 mm          |
| Width of installed product                     | 35.75 mm       |
| Power  |                |
| Inrush power absorbed                          | 21 VA          |
| Operating consumption                          | 3.4 VA         |
| Total power loss under IN                      | 7.5 W          |
| Power loss per contact                         | 1.5 W          |
| Power dissipation per coil                     | 1.5 W          |
| Contact rating with 230 V in AC7 category A    | 4.6 kW         |
| Contact rating with 230 V in AC7 category B    | 880 W          |
| Contact rating with 400 V in AC7 category A    | 13.8 kW        |

Contact rating with 400 V in AC7 category B

| Tripping  |               |
|---|---------------|
| Time of response when opening                       | 15 ms         |
| Time of response when closing                       | 25 ms         |
| Resistance  |               |
| Winding resistance                                  | 3150 Ω        |
| Endurance   |               |
| Electric endurance in number of cycles              | 30000         |
| Number of mechanical operations                     | 100000        |
| Fluorescent bulbs control                           |               |
| Max. power with fluorescent parallel lamps          | 810 VA        |
| Fluorescent lamps in duo circuit                    | 1990 VA       |
| Max. load fluorescent lamp                          | 950 VA        |
|   |               |
| Incandescent bulbs control                          |               |
| Max. power with incandescent lamps                  | 1900 W        |
| Installation, mounting                              |               |
| Tightening torque                                   | 1,2Nm         |
| Connection  |               |
| Connection cross-sect. flexible conductor           | 1 / 6mm²      |
| Connection cross-sect. rigid cable                  | 1 / 10mm²     |
| Number of contacts                                  | 4             |
| Type of contacts                                    | 4NO           |
| Type of connection                                  | with screw    |
| Connection cross-section of the control cable solid | 1 / 10 mm²    |
| Equipment   |               |
| Can be accessorized                                 | Yes           |
| Use   |               |
| Local operation/hand operation                      | No            |
| Safety  |               |
| Protection class                                    | isol.class II |
| REACH conform                                       | Yes           |
| RoHS conform  | Yes           |
| Halogen free  | No            |
| Use conditions                                      |               |
| Operating temperature                               | -1050 °C      |
| <u> </u>  |               |

-40...80 °C
