

RED113X

Switching relay 2gang RMD i2Audio light grey

Technical characteristics

Architecture

Fixing mode DIN rail type O (symmetrical)

Functions

Function switching

System functions subscriber-related switching and control functions

Controls and indicators

Switching and control operations Door release buttons ; Buttons for impulse switch or stairway light timer activation ; control by means of light, door release and comfort buttons of the indoor stations

Voltage

Operating voltage over bus 22...26 V DC

NO contact switching voltage max. 24 V

Electric current

No contact switching current max. 1 A

Dimensions

Width of rail mounted device (RMD) 3 modules

Materials

Colour RAL 7035

Installation, mounting

Installation mode Rail mounted unit (RMD)

Cable

Conductor Ø 0.5...0.8 mm

Settings

Device addressing rotary coding switch (one-man commissioning)

Use

System technology i2 Audio

Software

Software version V2020

Use conditions

Operating temperature 5...40 °C

Storage/transport temperature -20...60 °C
