

RED612X

Distributor/branch 2 ways RMD 2-wires

Technical characteristics

Architecture

Fixing mode DIN rail type O (symmetrical)

Functions

Function distributing

System functions distribution of single lines

Dimensions

Width of rail mounted device (RMD) 1 modules

Attenuation

Distribution attenuation 3 dB

Installation, mounting

Mounting type din-Rail

Installation mode Rail mounted unit (RMD)

Cable

Conductor Ø 0.5...0.8 mm

Use

System technology 2-wire

Video distribution

for distributing the incoming bus cable to the outgoing one ; for coupling the incoming bus cables to the outgoing ones ; unwired terminals must be completed with terminator

Software

Software version V1000

Use conditions

Operating temperature 5...40 °C

Storage/transport temperature -20...60 °C

Relative humidity (without condensation) 0...65 %
