

REK221X

## Indoor station Audio 2wires white polar shiny with deco plate angular TOUCH

## **Technical characteristics**

Security functions	special functions lockable using DIP-switches
Special functions	internal call FF / FE ; - Parallel call to call push-buttor intercom device address 0
System functions	acoustic and optical call signalling ; Storey cal forwarding ; Concierge call ; parallel operation of up to 3 indoor stations ; automatic display switch of after 3 minutes
Configuration	
Configuration	device configuration via DIP-switch
Controls and indicators	
Number of function keys	6
Voltage	
Operating voltage over bus	24 V DC
Electric current	
Current consumption (operation)	≤ 180 mA
Bus current consumption (idle)	≈ 9 mA
Resistance	
Terminator (terminating resistor), can be clamped	100 Ω
Materials	
Colour	polarwhite
Material	plastic
Installation, mounting	
For surface-mounting on a flat surface or on a wall box	according to DIN 49073
Installation mode	for vertical mounting, screw fastening via supporting plate
Connection	
Conductor cross-section (connection terminal block)	max. 0.75 mm <sup>2</sup>
Cable	
Conductor Ø	0.50.8 mm
Settings	
Device addressing	rotary coding switch (one-man commissioning

Audio settings	ring tone volume and microphone sensitivity can be adjusted incrementally
Calling settings	hands-free or Push-to-Talk
Scope of delivery	
Scope of delivery	Design frame within scope of delivery
Equipment	
Ring tone volume (signal)	according to DIN EN 50486
Ring tone volume	max. 78 dB at a distance of 0.5 m
Call volume (hands-free)	max. 65 dBA
Use	
	16 ring tone melodies ; door call, storey call or
Ring tone melody	internal call assignment ; shut-off button for ring tone, with status LED
System technology	2-wire
Use conditions	
Operating temperature	550 °C
Storage/transport temperature	550 °C
Relative humidity (without condensation)	065 %
