

WMDS1

1 Gang Dimmmer 400W

Technical characteristics

Architecture

Type of control unit	Push & rotative
----------------------	-----------------

Main electrical features

Frequency	50/60 Hz
-----------	----------

Voltage

Operating voltage	240 V AC
-------------------	----------

Connection

Type of load	inductive
--------------	-----------

Conductor cross-section	1.5...2.5 mm ²
-------------------------	---------------------------

Equipment

Dimming principle	phase cut-on
-------------------	--------------
