## Afdek. 2-v voor drukknopmodule, berker Q.1/Q.3/Q.7 polarwit

### Technische eigenschappen

#### Instellingen

|                          |           |
|--------------------------|-----------|
| Ondersteunde instelmodus | ETS, easy |
|--------------------------|-----------|

#### Materiaal

|       |          |
|-------|----------|
| Kleur | Polarwit |
|-------|----------|

|           |      |
|-----------|------|
| RAL-kleur | 9010 |
|-----------|------|

|                       |            |
|-----------------------|------------|
| Afwerking oppervlakte | Softfinish |
|-----------------------|------------|

|           |             |
|-----------|-------------|
| Materiaal | Thermoplast |
|-----------|-------------|

|                        |        |
|------------------------|--------|
| Oppervlaktebehandeling | Gelakt |
|------------------------|--------|

#### Connectiviteit

|                       |     |
|-----------------------|-----|
| Met bussysteem KNX RF | Nee |
|-----------------------|-----|

#### Teksten

|        |               |
|--------|---------------|
| afdruk | Zonder opdruk |
|--------|---------------|

|              |                 |
|--------------|-----------------|
| Montagewijze | Klembevestiging |
|--------------|-----------------|

|             |                                       |
|-------------|---------------------------------------|
| Verlichting | Voor verlichtings- en controlecircuit |
|-------------|---------------------------------------|

#### Uitrusting

|                               |    |
|-------------------------------|----|
| Controlevenster/licht uitgang | Ja |
|-------------------------------|----|

#### Toebehoren

|                 |     |
|-----------------|-----|
| Heeft tekstveld | Nee |
|-----------------|-----|

#### Veiligheid

|                      |      |
|----------------------|------|
| Beschermingsgraad IP | IP20 |
|----------------------|------|
