

HXA011H

### Nulspanningspoel (UVR) h3+, P160-P250-P630 24 VDC

#### Technische eigenschappen

##### Vermogen

|                               |         |
|-------------------------------|---------|
| Verbruik bij inkomende stroom | 0,56 VA |
|-------------------------------|---------|

##### Veiligheid

|                      |      |
|----------------------|------|
| Beschermingsgraad IP | IP4X |
|----------------------|------|

##### Spanning

|                  |         |
|------------------|---------|
| Stuurspanning AC | 0 - 0 V |
|------------------|---------|

|                  |           |
|------------------|-----------|
| Stuurspanning DC | 24 - 24 V |
|------------------|-----------|

##### Functies

|           |     |
|-----------|-----|
| Vertraagd | Nee |
|-----------|-----|
