

EG004

IP20

Clock key for time switches

Technical properties

Dimensions

Dimensions (LLxwwxhh)	10 x 20 x 30 mm
-----------------------	-----------------

Materials

Colour independent of design lines	yellow
------------------------------------	--------

Safety

REACH conform	Yes
---------------	-----

RoHS conform	Yes
--------------	-----

Halogen free	No
--------------	----

Protection	for protection of time switch against unauthorised changing of switching times
------------	--

Use conditions

Operating temperature	-5...45 °C
-----------------------	------------

Storage/transport temperature	-20...70 °C
-------------------------------	-------------
