

TE360

### 3Ph Kwhmeter direct 100A with KNX output

#### Technical properties

#### Settings

---

Supported configuration mode	ETS
------------------------------	-----

#### Use conditions

---

Operating temperature	-10 - 55 °C
-----------------------	-------------

#### Architecture

---

Bus system	KNX
------------	-----

---

Type of pole	3P+N
--------------	------

#### Connectivity

---

With bus system Powernet	No
--------------------------	----

---

Type of connection	Direct connection
--------------------	-------------------

#### Electric current

---

Maximum measuring circuit current	100 A
-----------------------------------	-------
