

4 modules

TXA661B

DIMMER 1 CHANNEL 600W NE

Technical properties

Technical properties	
Functions	
Multi-phase mode	suitable to switch different external conductors
	Learning function for optimised operation of compact fluorescent lamps and LED luminaires can be
Function	activated via the bus
Soft startup	bulb-preserving soft startup
Configuration	
Number of modules	4
Controls and indicators	
Indicator lamp	yes
Operation	manual operation also possible without bus, e.g. on building site; Manual operation can be activated via selection switch, thereby deactivation of the KNX function; Manual operation per channel via button with integrated status LED, thereby lockout of KNX function
Indication / display	status LED integrated in the manual operation button
Manual selection switches / push-buttons	selection switch for manual/bus operation as well as load setting
Button / push-button	with illuminated programming button
Main electrical features	
Frequency	50/60 Hz
Rated current	4 mA
Voltage	
Auxiliary voltage	230 V AC
Input voltage	230 V AC
Operating voltage over bus	2132 V DC
System supply voltage	30V DC via bus
Electric current	
Bus current consumption (data transfer)	< 2.3 mA
Fuse	
Fuse	short-circuit and overload proof (electronic fuse); short-circuit proof and overload proof (display using LEDs); overheating protection (display using LEDs)
Dimensions	

Power

Width of rail mounted device (RMD)

Dimmable conventional transformers	600 VA
Incandescent bulb power	600 W
Total power loss under IN	320 mW
Power dissipation per coil	180 mW
Power of the variator	600 W
Electronic transformers	600 W
Fluorescent bulbs control	
Quantity energy-saving lamps	per channel max. 8
Dimmable energy-saving lamps	120 W
Power lighting fluo lamps	120W
LED control	
Quantity of dimmable, 230 V retrofit LED lamps	per channel max. 8
Max number of LED/CFL lamps	10
Dimmable LED lamps	120 W
Power LED	120 W
LED	Status LED integrated in manual operation button; Overheating protection, display using LEDs; Overload protection, display via LED
Incandescent bulbs control	
230 V incandescent lamps and halogen lamps	600 W
Connection Connection cross-sect. flexible conductor	0,75 / 2,5mm²
Connection cross-sect. rigid cable	0,75 / 2,5mm²
Type of load	universa
Conductor cross-section (flexible)	0.752.5 mm²
Conductor cross-section (rigid)	
Bus coupling unit	0.752.5 mm ²
Type of connection	0.752.5 mm ² with integral bus coupling unit with QuickConnect plug-in terminals
Type of connection Bus connection	with integral bus coupling unit
	with integral bus coupling unit
Bus connection	with integral bus coupling unit with QuickConnect plug-in terminals bus connection via connecting termina
Bus connection Type of connection	with integral bus coupling unit with QuickConnect plug-in terminals bus connection via connecting termina
Bus connection Type of connection Settings	with integral bus coupling unit with QuickConnect plug-in terminals bus connection via connecting termina quick connect easy, system
Bus connection Type of connection Settings Supported configuration modes	with integral bus coupling unit with QuickConnect plug-in terminals bus connection via connecting termina quick connect easy, system
Bus connection Type of connection Settings Supported configuration modes Parameterisation	with integral bus coupling unit with QuickConnect plug-in terminals bus connection via connecting terminal quick connect easy, system preset behaviour in the event of bus voltage failure/return
Bus connection Type of connection Settings Supported configuration modes Parameterisation Scope of delivery	with integral bus coupling unit with QuickConnect plug-in terminals bus connection via connecting terminal quick connect easy, system preset behaviour in the event of bus voltage failure/return
Bus connection Type of connection Settings Supported configuration modes Parameterisation Scope of delivery Bus connection included	with integral bus coupling unit with QuickConnect plug-in terminals bus connection via connecting terminal quick connect
Bus connection Type of connection Settings Supported configuration modes Parameterisation Scope of delivery Bus connection included Equipment	with integral bus coupling unit with QuickConnect plug-in terminals bus connection via connecting terminal quick connect easy, system preset behaviour in the event of bus voltage failure/return
Bus connection Type of connection Settings Supported configuration modes Parameterisation Scope of delivery Bus connection included Equipment Number of outputs	with integral bus coupling unit with QuickConnect plug-in terminals bus connection via connecting terminal quick connect easy, system preset behaviour in the event of bus voltage failure/return Yes
Bus connection Type of connection Settings Supported configuration modes Parameterisation Scope of delivery Bus connection included Equipment Number of outputs Type of dimmer	with integral bus coupling unit with QuickConnect plug-in terminals bus connection via connecting terminal quick connect easy, system preset behaviour in the event of bus voltage failure/return Yes dimming actuator

	phase cut-on or cut-off according to load type, self-
Dimming principle	learning ; minimum/maximum dimming values per channel settable on device
low noise	very low noise
Use	
Local operation/hand operation	Yes
Safety	
REACH conform	No
RoHS conform	Yes
Halogen free	No
Protection	with overheating, overload and short-circuit protection
Use conditions	
Operating temperature	-545 °C
Storage/transport temperature	-2070 °C
Identification	

TXA

KNX

Device family
