

TYA661AN

Dimmer 1 channel 300W

Technical properties

Bus module detachable	Ν
Multi-phase mode	suitable to switch different external conductor
Function	Learning function for optimised operation of compac fluorescent lamps and LED luminaires can b activated via the bu
Soft startup	bulb-preserving soft startu
Configuration	
Number of modules	
Controls and indicators	
With LED indication	Ye
Indicator lamp	уе
	manual operation also possible without bus, e.g. o building site ; Manual operation can be activated vi selection switch, thereby deactivation of the KN function ; Manual operation per channel via butto with integrated status LED, thereby lockout of KN
Operation	functio
Indication / display	status LED integrated in the manual operatio butto
Manual selection switches / push-buttons	selection switch for manual/bus operation as well a load settin
Button / push-button	with illuminated programming butto
Main electrical features	
Frequency	50/60 H
Rated current	4 m
Voltage	
Auxiliary voltage	230 V A
Input voltage	230 V A
Operating voltage over bus	2132 V D
Electric current	
Bus current consumption (data transfer)	< 2.3 m
Fuse	
	short-circuit proof and overload proof (display usin

Width of rail mounted device (RMD)

300	Dimmable conventional transformers
300	Incandescent bulb power
320 r	Total power loss under IN
180 r	Power dissipation per coil
300	Electronic transformers
	Power supply
230 V	Supply voltage
	Fluorescent bulbs control
60	Dimmable energy-saving lamps
6	Power lighting fluo lamps
	LED control
	Max number of LED/CFL lamps
60	Dimmable LED lamps
60	Dimmable 230 V retrofit LED lamps
c.	Power LED
60 Status LED integrated in manual operation butto Overheating protection, display using LEE	
Status LED integrated in manual operation butto	
Status LED integrated in manual operation butto Overheating protection, display using LEE	LED
Status LED integrated in manual operation butto Overheating protection, display using LEE Overload protection, display via L	LED Incandescent bulbs control 230 V incandescent lamps and halogen

Bus connection included	Yes
Equipment	
Type of dimmer	dimming actuator
Modular expandability	No
Dimming principle	phase cut-on or cut-off according to load type, self- learning ; minimum/maximum dimming values per channel settable on device

Yes

Use

Local operation/hand operation	i i
--------------------------------	-----

Safety

No
Yes
No
with overheating, overload and short-circuit protection
-545 °C
-2070 °C
